CHURCH CONFERENCE

A conference of the members of the Church of Jesus Christ of Latter Day Saints in Danville will be held Saturday and Sunday, November 10th and 11th. The Saturday meetings will be held in Jefferson Hall, 1025 1/2 North Main street 10:00 a.m., 2:30 p.m., and 7:30 p.m. The Sunday meetings will be held in auditorium of Masonic Temple 10:00 a.m., 2:30 p.m., and 7:30 p.m.

Elder George Albert Smith, one of the general authorities of the church from Salt Lake City will be the principal speaker at all the sessions. The public is cordially invited to attend.

—Mrs. Sam Bennett, Mrs. James Hart, Mrs. Eddie Shelton, Mrs. Frank Marshall, all of Chatham, are visitors in the city today.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wright's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

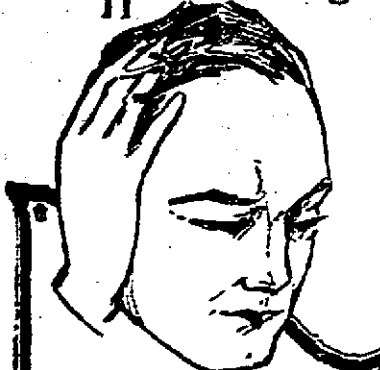

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.—adv.

Even old rheumatic aches

yield to this simple treatment. Apply Sloan's gently, without rubbing. It sends to the pain-ridden tissues the fresh new blood they need to heal them—bringing grateful relief. Get a bottle from your druggist today and have it on hand. 35 cents.

headache LaGrippe—Brain Fatigue

"B. C." is the refuge of thousands from nerve-racking pain. The relief is both positive and prompt; and as "B. C." does not contain any dope or habit-forming drugs there is no bad after-effects. It is positively recommended by leading physicians and druggists.

DR. KING'S NEW DISCOVERY

ENGLAND FACING CURRENCY CRISIS

By MILTON BRONNER

LONDON, Nov. 9.—On the rate of speed at which currency printing is being done in England will be run may depend the future of the British Isles. One of the greatest political, economic, financial and industrial battles of modern times is being waged on the gear ratio of the money mills. Shall the printing press, which ruined the currencies of Bolshevik Russia and republican Germany, be used to print more paper money for Great Britain?

Britain is struggling to decide whether to pursue the policy of deflation or reverse its position and start inflation—or merely stand as possible between the hazards of inflation or deflation.

Deflation means retching much paper money into circulation and which is being done, because the government so decrees. Inflation is the printing and subsequent circulation of more money. There are two mighty causes at work which have made hitherto conservative British business men, bankers and editors squint at printing-press methods:

FIRST—The fact that countries whose currency is depreciated in value like France and Italy are at work and are undercutting Britain's trade.

SECOND—That the great industrial districts of Britain are either idle or working on half time, with one million men unemployed, with the prospect of more being idle this winter and with the immense burden of supporting these jobless people by the payment of government doles.

Dollar Enters
And the dollar comes into the thing, too. The champions of inflation say that the eye of the British government has been fixed too much upon New York. The London masters of finance have been too much concerned in how the English pound sterling stood in relation to the American dollar. They say it is far more vital to know how it stands in relation to the French franc, the Italian lira and the Serbian dinar.

The argument runs—have a little inflation, cheapen the pound a comparatively small amount, bring it nearer to the level of old currency countries; trade will once more flow to England, factories will once more be busy, and the number of unemployed will disappear.

But the great Britain has pursued a policy of deflation. She has been taking much paper money out of circulation. Now no less a man than Sir Eric Geddes, president of the powerful Federation of British Industries, in a speech at Glasgow, said that if the government abandoned its policy of currency deflation trade would be at once stimulated.

"A policy of continuous deflation," said he, "means a rapid and continuous fall in prices, dislocation of business, an increase in the burden of the internal debt and continuous effort to adjust wages and costs to the constantly falling level of prices."

Urges Investigation
Both he and the organization of which he is the head therefore urged that the government should appoint a commission composed of bankers, manufacturers, traders and laboring men to investigate whether a further policy of deflation was to be pursued. He urged a monetary policy that would keep the price level stable.

Reginald McKenna, formerly chancellor of the exchequer and at present head of one of the five billion dollar banks of London, said in Belfast: "When unemployment is greatly in excess of the normal, we should abandon unhesitatingly the deflationary policy which is a cause of unemployment. But I do not say we should pursue a policy of monetary inflation."

OFFICIAL VOTE IN COUNTY GIVEN

The official compilation of the vote in Pittsylvania county was completed yesterday and confirmed, in large measure, unofficial returns.

The vote in full follows:
State corporation commissioner—Forward 2,707; Byars 201; State Senate, Clement 2,330, Garrett 3,161; lower House, R. T. Carter, 3,293; H. D. Shepherd, 3,316; C. R. Warren 2,281; Commonwealth's Attorney, Posie J. Hundley 3,377; Sheriff, J. A. Hodnett, 3,374; county treasurer, W. B. Ramsey 3,387; Commissioners of Revenue, first district, J. H. Oakes 2,217, second district, T. M. Oakes 2,089, third district, S. R. Brown 2,268, fourth district, W. L. Keese 1,841, J. C. Hughes 119, M. G. Miam 89.

Successful candidates for the Board of Supervisors were: Banister district, J. M. Oakes; Callands district, J. J. Tunstall, C. J. Ashworth, Dan River, L. C. Dodson; Pigg River, L. S. Giles; Staunton River, W. A. West. This is an entirely new board.

Chatham district, R. C. Collier, J. P. Thomas and W. A. Cherry; Tunstall district, C. G. Watson, R. S. Flitts and S. B. Haley; Callands district, B. P. Gilbert, H. A. Reynolds and N. E. Witcher; Dan River district, J. W. Easley; Pigg River district, W. D. Hendricks; H. H. Hogan; and R. L. Oakes; Staunton River district, J. L. Hurt, J. L. Jacobs and W. M. Farris.

The constables elected follow: Chatham district, F. S. Anderson; Tunstall district, W. B. Thomas (deceased); Callands district, R. J. Augstin; Banister district, C. J. Farmer; Dan River district, Ed Lindsey; Pigg River district, G. W. Bolling; Staunton River district, W. M. Thornton.

Vote for the bond issue: for 320; against 2,740.

MINISTER FREED OF RECKLESS DRIVING CHARGE

NORFOLK, Va., Nov. 8.—Rev. W. B. Keene, Jr. pastor of Immanuel Methodist church was freed of a charge of reckless driving in Police court today. He was alleged to have narrowly escaped running down a traffic sergeant. He claimed that he did not see the traffic officer until he had almost run him down.

CAME HOME TO DIE

"Three years ago I came home thinking 2 or 3 weeks would be my limit to live. I had suffered for 15 years from colic attacks and severe liver and stomach trouble. I happened to see an advertisement of Mayr's Wonderful Remedy and purchased a bottle at the drug store and after taking the first dose I felt better than I had for 15 years. I am now in the best of health—thanks to Mayr's Wonderful Remedy. It removed the catarrhal mucus from the intestinal tract and allayed the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at J. C. McFall's Drug and Sundry Store and druggists everywhere.—adv.

Cuts Grease from Drain-pipes

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo
There is one remedy that seldom fails to stop itching torture and relieve skin irritation, and that makes the skin soft, clear and healthy.
Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, Itch, Pimples, Rashes, Blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It is positively safe for tender, sensitive skins. Zemo Soap, 25c—Zemo Ointment, 50c.

DRAFTING OF BOOZE TREATY IS HELD UP

BY JOHN STEELE
(By Chicago Times Service.)
LONDON, Nov. 8.—The drafting of the booze treaty between the United States and Great Britain has been held up on a question of constitutionality raised in Washington. There is no dispute between the two nations on the principle involved and London has assured Washington of ratification. A similar cause is delaying final drafting of the agreement re-opening the New-castle consulate.

New Lamp Burns 94% Air

Beats Electric or Gas
A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up. It is simple, clean safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal oil). The inventor, O. S. Johnson, 642 N. Broad Street, Philadelphia, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency for your town, or how much or money make \$250 to \$500 per month.—adv.

Drop by drop, with several minutes intervals of hard beating, then a few more drops, and more beating—no wonder the housekeepers of yesterday dreaded mayonnaise making!
Today the best housekeepers are depending on Mrs. Duke to keep them supplied with a delicious, pure, uncooked mayonnaise. This mayonnaise tastes and looks exactly like the one you used to spend many long dreary minutes in making, and it is made with the same ingredients you used to use.
It is no trouble at all to serve salad with Duke's Home-made Mayonnaise, as it is always fresh, of even consistency, and perfectly flavored. The most delicious salads can be made on a moment's notice with Duke's Home-made Mayonnaise.

Small Houses Are Next Says Babson

WELLESLEY HILLS, Mass., Nov. 8.—The day of the small house is dawning according to Roger W. Babson who today issued a statement on the building industry. There is no question that some day the cost of building will be much less than it is now—the same as it is now about 15-20 per cent. less than it was in 1920, says the statistician. "The time will come when instead of talking about the poor tenant, our sympathies will be enlisted in the cause of the landlord. Every student of fundamental business statistics recognizes this situation. The point, however, which is important is whether or not this movement will come about suddenly or whether it will be spread out over a period of years. My own studies strongly suggest the longer and more gradual movement. There are two principal reasons:

"The first is that with all the new dwellings built during the past four years the greater part have been priced far out of reach of the great majority of people. In fact some figures worked out by my organization show that less than 10 per cent. of the people can afford to buy the so-called 'moderate priced' dwelling built today. Some, to be sure, have tried to and may get along all right until they strike reverses. The average family, however, cannot afford to give more than one week's pay out of every month for rent. Less than 10 per cent. of the heads of families in the United States make more than \$50 a week. Check up the cost of the houses built lately in your community and see how many of them can be rented profitably for less than \$50 a month. Hence, when one talks about the saturation point in dwelling houses he must take into account the price zones considered. The saturation at present prices apparently is rapidly being approached, but as soon as another 15 per cent. or 20 per cent. cut in building costs is put into effect an entirely new group of prospective home-owners is reached.

"The next point is that building costs can be reduced when the necessity arises. The only reason prices of building materials and building labor did not decline as much as the average of other things was because the demand was sufficient without it. That is more the case with building of economic law. No one should be blamed for not charging less than the market price. On the other hand, as necessity arises, the cost of building can and will be cut. If the next point is that building minimum and demand were falling off, there would be more in the building industry to worry about! "The chance of sudden crash either in building costs or real estate values is therefore small. The movement on the contrary will be far more likely to carry out the appearance of a series of steps. We had one big step down in 1921, followed by a partial advance. Before long another step probably will be in order. General business as reflected in the Babson chart is running at 16 per cent. below normal. The idea, however, that building values are suddenly going to drop to pre-war levels seems as improbable as the view that they will always continue at present high prices.

"It is highly important, however, that those who are interested in new building recognize the trend and work with it. The greatest opportunities during the coming year will be in building lower priced houses, say, high priced ones. What is most needed today is a house within reach of the great 90 per cent. of prospects. Necessity is the mother of invention. Some day we shall probably look back on the high cost of building of today as the source of tremendous benefit because of the economies and improvements in construction methods it will have caused. If present indications are reliable the next few years will bring forth some remarkable changes in the customs and methods of building houses. If a builder is to keep a continuous flow of new business, he must lead in this pre-cession with the chief aim of producing homes for the great majority. Every 10 per cent. that the cost of attractive homes can be reduced will increase the field of possible prospects by 500,000 to 1,000,000 people.

"During the past few months no less than a dozen leading architects have brought to my attention plans which they are developing whereby comfortable, livable homes can be built for much less than the usual cost. Some of these methods probably will prove practical, but some of them are going to help in producing houses which the average man cannot afford to live in. They vary widely in methods but all aim at the same purpose. Most of them involve a saving of labor. This, by the way, is exactly what has happened in every other industry where labor costs have become exorbitantly high.

"Some architects have found that certain of the features in the usual house which add to the expense can be successfully eliminated. Others have attacked the problem on the

ACCUSED OF TRYING TO POISON KIDDIES

By GEORGE BRITT
WHITEWATER, Wis., Nov. 9.—No man, not even her husband, ever paid flatterer attention to Myrtle Schaudé before Ernest Kufahl came to room at her home.

These lines, perhaps, furnish the explanatory background and motivation for the incredible mystery tragedy resulting in the woman being held on charges of giving a deadly sleeping draught to her husband and attempting to poison her four children.

Characters in the drama: Mrs. Schaudé, 30, pretty, capable, ardent, suppressed.

Edward Schaudé, 52, hardworking, conscientious, phlegmatic.

Kufahl, 29, prim and restrained.

And the children—Ralph, 16; Delbert, 12; Mae, 9; Lawrence, 5; all well-behaved and well-liked, helpless police say, in woeful innocence.

In her cell in the county jail at Elkhorn, Mrs. Schaudé constantly is pleading to see her babies.

"I can't bear the thought of being sent away from my children," she wails again and again.

Pleas for Children
Yet, according to the authorities, if she had not faltered some week ago in sacrificing them, the children now would be in the cemetery beside their father.

This, the police declare, is the story they've pieced together bit by bit: For 18 years Mr. Schaudé drudged through her married life. Her neighbors regarded her as a model mother and a stand-by in her church. On the farm, she helped her husband in the fields.

When the family moved to town, she began keeping boarders. Kufahl came to room at her house. He volunteered to help Mrs. Schaudé wash the dishes and tidy the house.

Drinks and Dies
In the spring, Schaudé became ill. His wife was exhausted from nursing him, so Kufahl offered to take her place a night.

Kufahl, according to Mrs. Schaudé's purported statement, agreed to mix a drink that would quiet the patient. Mrs. Schaudé objected. But she says Kufahl insisted he knew what he was doing and she believed him.

She placed the glass beside the bed. During the night Schaudé drank and died.

Kufahl threatened her with a similar fate. Mrs. Schaudé maintains, if she should breathe the secret.

Last Summer, dressed in her widow's black, Mrs. Schaudé visited Kufahl on a far mear McGrath, Minn. They talked of marriage, she says, but he objected that she could not take his children with her.

On September evening she borrowed a neighbor's automobile and took the children for a ride.

Before reaching a sharp turn in the road, she produced a bag of candy. Strychnine had been placed in a bag in each chocolate drop.

Ralph, the driver, would be stricken in principle of quantity production. Much has been done in the way of more economic planning so that delays and holdups in the work are almost entirely eliminated.

"The idea that people are always going to have to strain the last notch in order to get together the rent each month is absolutely fallacious. When a number of people greatly need a certain thing someone always finds a way to get it for them. Moreover, present need for lower priced dwellings and lower rents presents such an opportunity.

"From the investor's point of view the present situation in the building industry suggests three things:

"Earnings of the industrial concern supplying the building industry will depend during the next few years upon whether or not the builders grasp their present opportunities. The situation should be watched carefully by those interested in the securities of this group of building concerns.

"The investment builder faces the opportunity directly. There is little question but he will profit both by turning his attention to developments along the line of groups of less expensive houses than by continuing his activities in the higher price fields.

"Finally, the average investor has an opportunity in well located suburban land. Thousands of modest homes will be built during the next few years. The automobile has broken the transit limitation which has heretofore bound cities. The trend will be in favor of suburbs and the investor who puts a part of his funds in well selected suburban property at a fair price, judged on present levels, should profit during the next few years."

South Is Blamed By Underwood

(By The Associated Press.)
GREENVILLE, S. C., Nov. 8.—De claring that the South has only one horse to blame for failure to receive proper recognition from the government in various ways, attacking the Interstate Commerce Commission because, he said, discriminatory freight rates exist, and asserting that he expected the movement southward of textile manufactures to continue in the United States, Senator Oscar W. Underwood, of Alabama, candidate for the Democratic presidential nomination today delivered two luncheon addresses here. Tonight he spoke before the annual banquet of the Greenville Chamber of Commerce and more than 1,200 persons reserved seats to hear him.

"Not through any fault but our own has the South lost the rich opportunities that have presented themselves in years past," Senator Underwood said.

"The reason is merely our fear of a shadow that does not exist," he continued. "The war between the states today is no more a fact than the war of the roses because the two sides have long co-mingled. The whole fault lies with us because we have surrendered to a shadow and we have surrendered material interests of our business and consequently of our communities and our firesides."

Senator Underwood discussed the Interstate Commerce Commission declaring that the South virtually without representation thereon, even though members are named from geographical districts.

"Balancing of railroads' budgets rests, in the end, with this commission," he said. "Railroad rates hardly can be lower because of increased expenses the roads face but the commission can see to it that discriminatory rates do not exist. As a single example such inequalities now exclude from the Eastern market the iron and steel of portions of the South, which enjoyed before the war good business in the East."

The senator said the South should have three members on this commission of eleven.

"What I have said about the Interstate Commerce Commission," he declared, "is true practically of all government commissions."

Vessels at sea, regardless of nationality, may now obtain free medical advice from Danish radio stations.

Mrs. MYRTLE SCHAUDÉ

first, and the car would plunge over an embankment. The deaths would appear accidental.

But mother love conquered over clandestine infatuation. Mrs. Schaudé's heart fluttered warningly as her offspring "acted."

"Spit 'em out," she screamed. "They'll poison you."

And with her own fingers, she removed a sticky wafer from Baby Lawrence's mouth.

Ralph refused to be scared. He swallowed his candy. But the mother rushed all back to town and called a

physician. Ralph took sick, but recovered.

District Attorney Alfred L. Godfrey stepped into the case and began asking questions. Twenty-four hours later she made a clean breast of it all, Godfrey declares.

Kufahl, also in Elkhorn jail, laboriously denies Mrs. Schaudé's incriminating statements. And of her he will not talk.

"I'm not going to injure her," he tells all interviewers. "When this is all over and she gets back to her senses, I don't want any words of mine to affect her feeling for me."

Virginia State Treasury Faces Immense Deficit

(By The Associated Press.)
RICHMOND, Va., Nov. 8.—The Virginia State Treasury faces a deficit of approximately three millions of dollars, heads of State departments were told at the beginning of the annual hearings on the state budget were told here today by Governor E. Lee Trinkle, who insisted that because of the prospective shortage in funds strictest economy in the exercise of government functions was a necessity.

Practically all increases in salaries proposed were rejected today Governor Trinkle asserted that this was no time "to ask for more," admitting at the same time that salaries now were small.

"I want your help in making the necessary retrenchment," the executive told the budget commissioners and the department heads.

Longer hours of work and harder application in production were urged upon all state employees.

Various requests for increase appropriation for proposed extension in some departments were given a cold reception. Department heads were informed that any hope on this score would have to be deferred until the meeting of Senate Finance and House Appropriations committees at the next session of the Assembly.

No approach was made today to even an approximate estimate of what the budget commission's recommendations will contain. Several more days of discussion and investigation will be required to thresh out these matters of finance, officials intimated.

FOUR KILLED AND 8 INJURED
(By The Associated Press.)
GENOA, Italy, Nov. 8.—Four persons were killed and eight seriously injured today at Port Genot at Carignilana, by explosions of shells. The explosions started a fire in the woods, the flames from which were visible for miles.

The original explosion was caused by the bursting of a shell which soldiers were unloading from a cannon. The detonation set off other shells and fires were started outside the fort. Firemen were rushed to the scene from Genoa and were engaged throughout the day in preventing the spread of the flames to the fort proper.

The detonation of the exploding shells could be heard intermittently throughout the day many miles from the fort.

SPEEDY

This they offered to the cashier. As he reached for it one of the men presented a pistol and forced him back into the vault. The other scooped what money he found in the vault into a sack. They closed the vault door but headed Mr. Morton's plea not to lock it. After taking all the money they could find outside the vault the men left. Just before Mr. Morton's cries attracted the attention of H. C. Chapman in a tailor shop in the basement under the bank.

Mr. Chapman summoned aid and got the vault door open, but the robbers had a start of about 20 minutes before a posse headed by two state

ROCHESTER BUYS OUTFIELDER
HIGH POINT, N. C., Nov. 7.—W. C. (Red) Irby, center fielder on the High Point Club of the Piedmont League, and Gus Thompson, catcher, have been sold to the Rochester International League Club, conditional upon their not being included in the major league draft.

FRIDAY NOVEMBER 9, 1923.

A REAL SOCIAL "PROBLEM"

An official request from a congress

of charities organizations in the Mid-

dle West that all states enact a law

compelling children whose means

permit, to support parents aged be-

yond the years of productive activity,

emits the ear harshly. Read broad-

ly the resolution seems to accuse the

sons and daughters of the United

States of grossly unflinching conduct.

The full force of the situation and the

demand of these workers becomes

specific in the assertion, backed by

statistics, that enforcement of such

a law in a single state has reduced

the public expenditure on account of

aged parents 40 per cent. Put into

that form the agitation for legislation

assumes the character of an indict-

ment. There is a hard, cruel sound

to the bare statement that any com-

monwealth finds it necessary to em-

ploy legal force to compel children

of parents too aged to work and too

poor to live without it to furnish sup-

port.

Evidently our civilization has some

blowholes when it fails to keep in-

fect the affection between parents

and children, or retains enough

sense of duty to make it a work of

pleasure to brighten the years of pur-

ple twilight for decrepit parents. Evi-

dently, too, there is a big field for

home missionary work if this charge

stands with accusing finger pointed

at virtually the whole American na-

tion. It may be injustice to lay this

situation to our civilization and yet

how can one be separated from the

other? If refusal of 40 per cent. of

children of means to support depen-

dent parents is not because of civiliza-

tion, would it be fair to assume

that such callous evasion of duty

exists in spite of the teachings of our

progressive age?

There may be less profit in discuss-

ing possible causes than in agreeing

with these charity workers that legis-

lation of compulsory character is the

remedy—or denying that legal force

will work improvement. The dis-

tressing fact is that such a condition

exists, whatever the causes or what-

ever the suggestions for remedy, or

whatever the final cure may be. This

looks more like a social problem than

bobbed hair for flappers, but seems

to have attracted far less attention.

MODERN MIRACLES

The question in the Scriptures,

"What man, by taking thought, can

add a cubit to his stature?" has

hitherto been supposed to represent

the impossible. But if Dr. William

Held, of Chicago, is to be believed,

he has only to allow an up-to-date

student of latter-day glandular sur-

gery to do the thinking for him and

the apparent miracle will become

possible. Dr. Held, who has just re-

turned from studying glandular

treatment in Vienna, is with Dr. Ben-

jamin H. Breakstone, now treating

a Chicago woman 20 years old and

only 38 inches tall, and expects by

the administration of extracts of

thyroid glands, to increase her

height by 2 feet. The Hebrew cubit

being only 22 inches, the doctors are

thus throwing in 2 inches for good

measure. Dr. Held goes still fur-

ther. He asserts that through the

knowledge of gland influences and se-

lective marriage of tall persons a

race of giants could be produced. By

reversing the treatment a race of

dwarfs could be developed. If the

late Phineas T. Barnum were alive

today, he would find the task of re-

creating the freak section of the

"Greatest Show on Earth" singularly

facilitated.

The miracles of modern science are

not confined to the human body

alone. The action of the brain also

comes within its purview. If the

theory put forward by Dr. William

Mayo, of Rochester, is correct, the

field of action of the cerebral med-

ium may be greatly widened. Even

when awake, says Dr. Mayo, man is

only one-quarter conscious of what

his body is doing. Three-quarters of

the energy created by the food he

eats and the air he breathes is spent

without his knowing it.

In the same way his will power is

only 25 per cent. efficient. The other

75 per cent. is absorbed by his sub-

conscious mind. The worst of it is

that the conscious and the subcon-

scious minds are not always in agree-

ment. The clash between them, when

the unfortunate 25 per cent. outfit

tries to raid the territory of its 75

per cent. brother, produces bodily

disturbances which more or less re-

semble real diseases. It is this con-

dition of things, says Dr. Mayo,

which forms "the happy hunting

ground" for "cults" and quackeries

of all kinds.

CONSIDER THE NEWSPAPER

There is heard occasionally the

criticism that the daily newspaper is

printing too little news of real value.

Like criticism in other things it is

not all without prejudice and bias

on personal opinions and desires.

Proof of this lies in any group of

such appraisals. There is one reader

who favors financial news and religi-

ous topics and has an aversion for

society items and the sports columns,

while another finds the editorial col-

umns and classified ads as the car-

dinal requirements of the modern

newspaper, and so on with every

critic for himself.

There is, however, at hand a fair

and nonpartisan method of putting

the news criticism to test. That

method is a simple and cursory

examination of one issue of any re-

presentative daily newspaper selected

at random and without knowledge

of the content.

Making such a test for himself the

editor found the following as he

turned over the pages from the first

to the last: A discussion of inter-

national, national and state politics

and economics, something about

science, a spattering of crime, disaster

and scandal, some human interest,

a woman who adopted twins, the aged

college professor who expended his

life's earnings for a telescope for his

class in astronomy and an employer

who requires his employees to save

10 per cent. of their salaries, a ver-

itable host of bargains offered in both

display and classified advertising, an

installment of a popular play and

book in serial form, a wide variety of

sports events and the marriages,

births and obituaries.

Is there anyone who can say that

one of these news departments is

without interest and appeal?

YOUR HEALTH

By Dr. Clifford C. Robinson

MUSCLE BUILDING

We are able to control the volun-

tary muscles, like the biceps, the

large muscle of the front upper arm

or that in the lower leg or calf. The

muscles of the shoulders, back and

neck, and certain muscles of the face

and jaw are also under our con-

trol to a great extent.

Involuntary muscles control the

action of the heart, stomach and di-

aphragm. Over these we have no

control or direct action. We can only

supply them with blood and nerve

force through proper hygienic living

and the right kinds of food.

In building up muscle tissue you

have to consider two principal ac-

tions. First, supplying the energy

through proper food; and, second, in

the proper exercising or use of mus-

cles, to produce a healthy growth of

tissue. Without a proper amount of

use, your muscles will become flabby

and almost useless.

The carbohydrates (starch and

sugar) form a substance in the body

called glucose. This is used up by

the involuntary muscles. The fat

foods are also muscle producers.

In exercising and stimulating your

muscles for growth and strength, you

must use caution. Never severely

tire or strain your muscles to the

limit. When you feel the "pull" or

the bulging part of a muscle you

know it is growing—so to speak.

The muscle-fiber, nerve-fiber, and

nerve-cell form a connecting link

between the muscle and the spinal

nerve-cell from which its fibers come,

or if the nerve-cells are destroyed by

disease, the muscle will become a

useless mass of connective tissue.

Another Period Record Breaking Freight Hauling

(By The Associated Press.)
NEW YORK, Nov. 8.—The Association of Railway Executives and The American Railway Association in joint session at the Yale Club, laid down a program for expansion based upon predictions that 1924 would equal if not surpass the record-breaking freight hauling business of 1923.

Both associations adopted a report drawn by the A. R. A. board of directors, announcing that \$240,000,000 remained to be spent by railroads of the nation in the distributing their 1923 appropriations for new locomotive, car equipment and repairs.

They also outlined a plan for further stimulus of efficiency along all lines, an continued mutual cooperation between rail executives and the public to the end that the years recede for high tonnage rapidly transported—without the usual car shortages, congestion and embargoes—might be equaled under continued industrial prosperity in 1924.

Hale Holden, president of the Chicago, Burlington and Quincy, was re-elected chairman of the A. R. A. executive commission. Sir Henry W. Thornton, president of the Canadian National Railway, was elected to the committee bringing the membership to 36, and J. D. Burt, president of the Nickel Plate, was chosen to succeed W. L. Ross, former vice president.

FLAT ON BACK SIX MONTHS

Now Virginia Lady Says She Feels Like Work and Gives Credit for Good Health to Cardui.

Bristol, Va.—"I can sleep good at night now, something I have never done before in my life," says Mrs. Deala Hawks of 712 Prospect St., this city "and it is due to Cardui."

"I was always nervous and tossed when I should have been asleep, but since I took Cardui it has strengthened me and my general health is so improved that many of the ailments from which I have suffered for years have fled."

"I used to go to bed tired and, when I would get up in the morning I was still tired. Now I feel like doing a day's work in my garden or in the house and I owe all this good health to Cardui for I had suffered for years until I took it."

"I had had female trouble for years and once for six months, I was flat on my back. I am glad to recommend to other women a medicine which has helped me."

Many women suffer as did Mrs. Hawks from a nervous, rundown condition that prevents sleep and gives them a continuous tired, weak, restless feeling. And a great many of them have taken Cardui, as Mrs. Hawks did, and soon had their health and strength return. Cardui may be just what you need.

THE HUB
307 MAIN STREET

Line. The A. R. A. will elect officers at the April meeting, when the association will outline a financial program for the guidance of its 240 members.

At the close of the business session, the A. R. A. voted to establish a "chair of efficiency" in honor of the late Thomas Dewitt Cuyler, the chair to be maintained by voluntary subscriptions from individual roads.

Although the program did not specify the total capital expenditures for 1924 that might be written in the budgets of individual roads, it is expressed complete satisfaction with results of the billion and a half dollar plan for expansion embarked upon last spring.

The goals set then had been nearly attained, many traffic records had been smashed to carry the freight of an era of industrial prosperity, much new equipment had been acquired, old equipment restored to service, car shortages had been few, traffic congestions rare and embargoes almost eliminated.

All these accomplishments, the A. R. A. and the A. R. A. pointed out, were due principally to a new spirit of unity among the railroads and cooperation among the roads and the public. The program for 1924 is a bid for further expansion toward the goal of maximum efficiency, accompanied by more perfect team work between the roads and their patrons.

The roads pledged themselves to continue to serve effort to reduce the proportion of locomotives and cars requiring repairs and maintain at the lowest possible minimum consistent with the volume of business offered and the revenue the roads are permitted to earn.

Increased supervision by the roads and greater cooperation with shippers to attain fuller utilization of car capacity.

Continued intensive effort to increase the average daily movement per freight car, and to set new records for prompt movement of traffic.

Thorough consideration of the possibilities of a more extensive and interchange of joint facilities.

Continued complete cooperation of the roads through the car service division of the American Railway Association which provides a central control and distribution of freight cars between previous railroads and territories.

Active support to all phases of the regional shippers' advisory board of road executives and customers organized to solve normal traffic problems.

Accompanying the program approved was the following resolution which also was passed by both of the railway associations:

"Calling attention to the large capital expenditures made in 1923 for equipment and other transportation facilities, almost entirely from borrowed money, and to the necessity in the public interest of the continuation of similar expenditures in the future if the needs of the constantly growing commerce of the country are to be met, the railroads re-affirmed their faith that the American people, the agencies of the government, state and nation, who have the final voice in controlling railroad revenues and expenses, recognize that the continuation of an adequate program for transportation service depends upon such net income to the railroads as will permit a fair return upon the property now devoted to the public service and will make it possible to secure new capital which is imperatively needed."

"Notwithstanding the unprecedented volume of traffic successfully handled this year the railroads have earned not even the moderate net return contemplated."

TEDDY WOULD HAVE BEEN PROUD OF HER

And all of them—there are 11—are her great-grandchildren. At that they are only a small part of the family that gathered round when Great-Grandmother Anna Rodgers celebrated her 80th birthday anniversary in Cleveland recently. The rest of the relatives included six daughters and 40 grandchildren. A regular Roosevelt family, indeed!

Overnight Features BY THE ASSOCIATED PRESS

Bavarian government is overthrown by Adolf Hitler, fascist leader, General Ludendorff is made supreme head, with essential powers of dictator and Hitler will be his chief political adviser, Munich dispatches say.

Late London advices from Berlin declare German capital is alive with troops and that the cabinet is interrupted session.

General Von Seeckt has been appointed commander in chief of the National Army, with absolute military authority, Berlin advices assert.

Hitler's troops have begun march against Berlin and Hitler has proclaimed himself chancellor of the whole Reich, Paris newspaper reports from Berlin say.

German central governments breaks all relations with Bavaria and withdraws federal support until constitutional conditions are restored.

Dr. Von Kahr accepts governorship of Bavaria as representative of the monarchy, late Berlin dispatch declares.

General Ludendorff in accepting dictatorship, said, "We have reached turning point in the history of Germany and the world."

FRANCE ISSUES WARNING
(By The Associated Press.)
PARIS, Nov. 8.—France warned Germany today that this government cannot remain a disinterested spectator in the event an attempt to establish a military nationalist dictatorship in Berlin.

The representations presented through the French ambassador in the German capital were couched in diplomatic terms but under the polite forms used in such communications, aspiring dictators were told to keep their hands off.

France has no intention of interfering with Germany's internal affairs, it was said at the foreign office tonight, but a return of the militarist party to power in Germany would mean the almost certain repudiation of the treaty of Versailles.

It is believed here that opposition of the nationalists to the succeeding German Republic governments has been due to what they regard as the lukewarmness of these governments in their resistance to the execution of the treaty.

The advent of a military dictatorship in Berlin would make useless any more discussion as to the organization of an expert committee to investigate Germany's capacity to pay.

Munich revolutionists are reported to have arrested Premier Von Knilling and other ministers.

Lieutenant Ralph E. Davison, of the Naval Air Service, will take part in Captain Roland Admudson's attempt next summer to reach the North Pole, Navy Department announces.

Death at Memphis of W. J. Crawford, president of company that publishes the Memphis Commercial Appeal.

Milton S. Hershey, candy manufacturer, five years ago transferred rationally his entire wealth of about \$60,000,000 to Hershey Penn. Industrial school, an orphanage; Mr. Hershey's chief legal representative confirmed the report and deed has been kept secret for five years, Harrisburg dispatch says.

Harding Memorial Association announces plans for observing Harding Memorial week throughout the United States December 9 to 18.

Former Governor Nathan L. Miller of New York, joins legal staff retained by James A. Stillman in his office to divorce Mrs. Anne U. Stillman.

It is held here, since the policy of the new regime would probably mean absolute repudiation of the reparations debt, hence, the French government decided upon the warning not only as being opportune but necessary.

BLAINE HAGEN IS DENIED BOND
(By The Associated Press.)
BRISTOL, Va., Nov. 8.—Blaine Hagen, charged with running down and killing Thomas Bishop near here yesterday while driving at a terrific speed, was ordered held without bond for action of the next grand jury when given a hearing before Squire J. S. Swan here today.

Nine witnesses were heard for the state in the case and one for the defense. Several testified that Hagen was driving about 65 miles an hour when he struck Bishop. Hagen was not put on the stand. Attorneys for the defense sought bond but the court refused to grant it.

Hagen was represented by four attorneys. Two acted for the state. Following the hearing Hagen was taken to the county jail at Blountsville, Tennessee, to be held until trial in January.

Japan Repeats Protest To China

TOKIO, Nov. 9.—Japan has repeated her protest to China against the agreement permitting the construction of five powerful wireless stations in China, under a contract signed with R. P. Schwerl, president of the Federal Telegraph Company in conjunction with the Radio Corporation of America.

The action is taken "with the greatest reluctance," according to an official of the foreign office, just at a moment when the people of Japan are showing their gratitude to America for their great munificence, prompted by the distress which followed the earthquake and fire.

The step was deemed necessary, however, because of the action of Kenkichi Yoshizawa, minister to Peking, on October 24, of continuing the tentative agreement made by Dr. V. K. Wellington Koo, then foreign minister, with Mr. Schwerl, when the Americans were informed they could start the project at Shanghai.

Japan has taken the position that the Mitsui Company of Japan had previously been granted a monopoly for 30 years and that the company has carried out its obligations.

It would be possible perhaps to revoke the contract of the Mitsui Company, it was said at the foreign office, if all countries concerned can agree on a co-operative policy as suggested by experts at the Washington conference. Japanese, French and British interests now are discussing such co-operation. It was said, and British and American interests are being kept informed as to the negotiations.

It was suggested a settlement along such lines was possible, as it is understood that the Radio Corporation of America, which is co-operating in China with the Federal Telegraph Company and which has been negotiating with Japan, is in a position to finance the Schwerl project.

NORFOLK BUSINESS GOOD
NORFOLK, Va., Nov. 8.—That business in Norfolk, Portsmouth and vicinity is better today than at any time this year and about equal to that of Christmas shopping season last year is indicated by the report of the Norfolk and Portsmouth Clearing House Association for the week ending at noon today.

DAILY PUZZLE

VOTE CANVASS IN LYNCHBURG
(By The Associated Press.)
LYNCHBURG, Va., Nov. 8.—The canvass of the vote of Tuesday's election here today certified the unofficial returns as correct, the vote for bonds being 1,260, against 998. The vote for members of the State Corporation Commission Forward, 1,765, Byars 293.

The canvass in Bedford gave 139 for bonds and 2,358 against and 1,825 for Forward and 295 for Byars. In Amherst county the canvass showed for bonds 193, against 988; for Forward 844, Byars 164.

The Campbell county canvass had not been completed at 2 o'clock because of missing precincts. Nelson county: for bonds 236; against 1,786, Forward 1,309, Byars 263.

RECORD TIME IS MADE
(By The Associated Press.)
BRISTOL, Va., Nov. 8.—Lieutenant Harry R. Harris and E. G. Plank, government aviators arrived in Bristol at 1:40 o'clock this afternoon from McCook Field, Dayton, Ohio, in a record flying time of one hour and fifty-two minutes in a biplane D H 400 horsepower Liberty plane. This plane was brought here for the purpose of making maps of the three branches of the Holston river in this section.

JOINT-EASE

FOR
Stiff, Swollen Joints
Rheumatic or Otherwise
Says: "When Joint-Ease Gets in—Joint Agony Gets Out."

It was a high-class pharmacist who saw prescription after prescription fall to help hundreds of his customers to get rid of rheumatic swellings and stiff inflamed joints.

And it was this same man who asserted that a remedy could and would be compounded that would make creaky, swollen, tormented joints work with just as much smoothness as they ever did.

Not this prescription, rightly named Joint-Ease, after being tested successfully on many obstinate cases is offered through progressive pharmacies to the millions of people who suffer from ailing joints that need limbering up.

Swollen, twingy, inflamed stiff pain-tormented joints are usually caused by rheumatism, but whatever the cause Joint-Ease soaks right in through skin and flesh and gets right to work and corrects the trouble at its source.

Remember Joint-Ease is for ailments of the joints, whether in ankle, knee, hip, elbow, shoulder, spine or finger, and when you rub it on you may expect speedy and gratifying results.

It is now on sale at All Drug Stores for 60 cent a tube—advise your pharmacist.

HOW STANLEY SPRINGS ARE SELF-OILED

As you will note from the illustration at the right each Stanley Spring is equipped with cups stamped in the leaves. These cups are filled with absorbent felt pads, loaded with free flowing oil—preferably light cylinder oil. The oil is replenished by squirting through two grooves or a hole, according to the type of spring. The felt is thicker than necessary to fill the cup. It is under constant pressure. As soon as the spring goes into action there begins a gentle kneading process which forces the oil out of the felt onto the friction surface of each spring leaf. The oil is not forced entirely out of the spring, however, because of a continuous capillary attraction which holds it well within the bounds of the spring; thus there is ample lubrication and a surplus which does not drip.

One Oiling Is Good for Three Thousand Miles
The Stanley system is built integral with the spring and requires no special installation.

WITH STANLEY SPRINGS—Your Car Rides Easier—Your Springs Last Longer—You Eliminate Annoying Squeaking—You Prevent Rusting and Breakage—You Preserve the Resiliency of Your Car.

Long Live the Queen!

Before her rich and poor alike bowed low in homage, Madame Marie-Antoinette ruled the realm—for a few days at least. She was queen of the fall festival in Kenosha, Wis. She was crowned after a spirited contest with more than 50 other pretty girls.

EVANS SCORED BECAUSE HE CAN NOT BE FOUND

(By The Associated Press)
ATLANTA, Ga., Nov. 8.—Colonel William Joseph Simmons, emperor of the Ku Klux Klan, returning today from Birmingham in a statement issued from his home declared he is "astonished" that Imperial Wizard H. W. Evans, "remains in hiding at a critical time like this" and that newspaper men and Klansmen are "unable to find any responsible head at Palace headquarters willing to meet those entitled to information."

"I don't believe Klansmen of the nation are going to much longer put up with an administration that meets crucial situations like this in such cowardly manner," the statement said.

Dr. Fred B. Johnston, chief of staff to Emperor Simmons, who returned from Birmingham with his superior, also issued a statement in which he declared he had gone to Birmingham to guard the emperor because of a "reliable tip" that Simmons was to be removed "via the telephone" calls from numerous telephone calls had threatened the lives of Simmons, E. Y. Clarke, Imperial Wizard, and his own life.

Peace warrants against three of Evans' associates were issued yesterday when Johnston failed to appear in court, will be reissued if the necessity arises, Johnston said. The warrant against Wizard Evans still stands.

Developments today following the killing last Monday of Captain W. S. Curburn, Klan attorney, which brought up the new situation within the Klan, were meagre so far as they affected Philip E. Fox, Klan publication editor and publicity man in Fulton tower under indictment for murder of Curburn. His case apparently was at a standstill today with the state continuing its effort to secure an early trial and with Mrs. Fox carrying on the work of shaping the defense.

No counsel has been announced yet for Fox, although it is reported attorneys are coming here from Dallas, Texas, Fox's former home, with a party of relatives and friends.

INCREASE CAPITAL STOCK

(By The Associated Press)
NEW YORK, Nov. 8.—Stockholders of the New York Title and Mortgage Company voted today to increase the capital stock from \$500,000 to \$1,000,000. The stock is to be offered to present stockholders at \$125 per share payable on or before December 1, 1923, or the basis of one new share for each five shares held.

High Blood Pressure Responds To New Treatment

Here is a surprisingly quick, easy way to banish the dizziness, the nervousness, the palpitation, the shortness of breath, the headaches, and the general weakness caused by high blood pressure.

An eminent doctor obtained such remarkable successes in treating even the most obstinate cases that other physicians asked him to disclose his prescription. Its use has become so general that it is now on sale in all good drug stores. It is called "Biafin."

This wonderful prescription contains no harmful drugs to depress the heart. It quickly clears out the clogging poisons which have slowed up the system and caused high blood pressure. Use it and obtain a new lease on life. See how quickly it makes you feel years younger—free from the exceedingly distressing symptoms and dangers of high blood pressure, and full of the powers and energy of more youthful days.

You can get convenient tablet form at all good druggists such as Frank B. McCall, J. C. McCall's Drug Store, Patterson Drug Co., Jacob's Drug Store, Stephenson's Drug Store—adv.

COLDS THAT DEVELOP INTO PNEUMONIA

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two fold action; it soothes and heals the inflamed membranes and kills the germ.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach is absorbed into the blood, attacks the seat of the trouble and destroys the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchitis, asthmatic bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cold or cold matter of breathing standing is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.—adv.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Follow directions on each package. Physicians everywhere recommend it.

This Little World

BY MASON DIXON
(Special to The Bee)
NEW ORLEANS, Nov. 8.—The mas and mas, the Grandmas and the Grandpas of New Orleans are getting tired of the dominance of the flapper and the debutante. So they plan to step out themselves this winter and stage a carnival ball that will throw into the shade any Mardi Gras affair ever given in the Crescent City. They have organized "The Dukes of Alexis."

This organization will give a carnival ball at which the queen and all of her attendants will be met on a no limit, and the king and all of his court will be married men, age 40 and over.

Of course the debts and the debts will stage their usual bulls of the parties who supply the mazzetta for all the other balls, have announced.

"When we old folks stage our affair it will be the most brilliant spectacle and greatest social event New Orleans ever saw. The king will have to take off their hats to us."

The Limping Lady limps no more in New Orleans drug stores.

Beautiful, young, grimacing with pain, she limped into this week. "A corn plaster, quick, please—oh, please!"

Instantly, a solicitous pharmacist obliged.

"May I put it on here?" she supplicated, glancing in search of privacy.

"Certainly, madam." The pharmacist dashed the way to the prescription counter, only booth in the store. He departed discreetly. He hurried out in front where a male customer loudly demanded attention.

Later, he found that all the morphine cocaine had vanished from his prescription case.

When detectives arrested Mrs. Emile Carpenter of Breckenridge, Tex., she was identified as the sore-footed young lady. Her husband was identified as the loudly demanding male customer. Four druggists they had victimized identified them.

Many's the time Mrs. F. Caffero of New Orleans, mother of six, wanted

Trial Of Walton On Impeachment Charges Begun

(By The Associated Press)
OKLAHOMA CITY, Okla., Nov. 8.—The trial of Governor J. C. Walton on impeachment charges brought on by the House of Representatives was started today before the Senate, sitting as a court of impeachment.

The House board of managers prosecuting the case elected to try the governor on article two of the bill of impeachment, which charges that the executives placed his personal chauffeur, T. P. Edwards, on the payroll of the State Board of Health.

In testimony given today by witnesses for the prosecution set out that after Paul Nesbit, state highway commissioner, had refused to place Edwards on his payroll because he thought it would be illegal, Governor Walton obtained from Dr. A. E. Davenport, health commissioner, his agreement to a plan by which Edwards drew \$200 a month as an employee of the Health Department.

Adjutant General B. H. Markham, the next witness, said Edwards and Homer D. Martin, a guard at the governor's residence during the recent statewide martial law regime, were commissioned officers in the national guard, upon written orders of Governor Walton. He said they drew salaries as such although neither had passed the military examination of subscribers to the required oath.

C. C. Childers, state auditor, identified the warrants issued to Edwards and Martin and testified each warrant bore an endorsement in the name of the man to whom it was issued.

Commissioner Nesbit testified that he executive asked him if he could take care of two or three of his "friends," and named Edwards as one of the number. The witness said he refused, telling the governor such procedure would be unlawful.

Dr. Davenport then stepped to a telephone, the commissioner testified, and made arrangements with Dr. Davenport to place Edwards on the Health Department payroll.

Aldrich Blake, former executive counselor, and regarded as the governor's closest adviser during the martial law days and the weeks just preceding, then testified that he had seen Martin guarding the governor's home and that Edwards was known to him as the executive's chauffeur.

Dr. Davenport appeared as a witness after a writ of attachment had been issued by the court upon request of the prosecution. He testified Edwards had been on the Health Department payroll five months at the request of Governor Walton. The wit-

ness admitted Edwards had made a report to him.

Homer Martin followed Davenport. He testified he had guarded the governor's residence and that he held a commission as lieutenant in the Oklahoma national guard. Replied to questions, he said he had not taken the guard examination, been issued a uniform or had previous military experience.

Governor Walton entered the Senate chamber promptly on the opening of the trial, with Mrs. Walton. They took their places at the defense counsel table and after a few minutes the executive lit his pipe. He smoked throughout the afternoon with little apparent concern over the proceedings.

The Senate galleries were packed and many observers were filled with persons unable to gain admittance.

Nothing Certain On Reparations

(By The Associated Press)
WASHINGTON, Nov. 8.—Final decision as to whether the United States will find it possible to participate in an expert inquiry into the reparations situation limited to the "present capacity" of Germany to meet her obligations apparently still awaits completion of conversations between Secretary Hughes and Ambassador Jusserand.

There were no further developments in relation to the project in Washington today, so far as known. The situation was said authoritatively to be exactly where it was last night when the French ambassador left the State Department after his second interview with Mr. Hughes for the purpose of explaining Premier Poincare's attitude.

The embargo upon discussion here by government or diplomatic officials of the exchanges between the secretary and the ambassador was not lifted in any way. It was learned, however, that officials expect definite developments any moment. The interpretation generally placed upon this expectation was that further instructions to the ambassador from his government were necessary before the Washington administration could decide whether it would approve of the calling of a conference restricted as desired by the French premier.

In some quarters where there probably is definite knowledge as to details of the Hughes-Jusserand exchange, it was said that the French and American view points are still far apart. The impression prevailed that the advice received yesterday by Ambassador Jusserand from Paris and on which his amplification of Premier Poincare's attitude was based in his subsequent talk with Mr. Hughes had not furnished the secretary with the exact understanding of the French government feels it must have to guide its action.

In other words, it was said, the meaning of "present capacity" is used by the French government in the negotiations between Paris and London is not clear to the Washington government. Presumably the French foreign office has been asked for further details as to the specific things the proposed committee of experts could or could not inquire into under that language.

Pending completion of the conversations with the French ambassador, Secretary Hughes talked today with officials from British, Belgian and Italian embassies who called at his office. It was "diplomatic day" at the State Department, the day of each week in which diplomats may expect to see the secretary without special appointment.

LUDENDORF IS CHIEF

(By The Associated Press)
PARIS, Nov. 8.—Adolph Hitler, the fascist leader in Bavaria, has proclaimed General Ludendorff supreme chief of Bavaria, with Hitler as his political adviser, says a Munich dispatch to the Haver agency.

Another dispatch to the same agency says all telegraph communication between Munich and Berlin was cut at midnight.

TOBACCO PRODUCTION SHOWS A BIG INCREASE

(By The Associated Press)
WASHINGTON, Nov. 8.—Large crops of corn, potatoes, apples and tobacco have been grown this year, preliminary estimates of production issued today by the Department of Agriculture, showing each to be better than their five year average.

Tobacco production show a decrease from the crop forecast a month ago, with a total of 1,436,738,000 pounds, or 112,000,000 pounds more than produced last year. It is the fourth largest crop ever grown.

Corn is a three-billion-bushel crop for the fifth time and at November 1 farm prices, it value exceeds \$2,500,000,000. Production is placed at 3,029,192,000 bushels or about 140,000,000 bushels more than last year's crop. A considerable amount of its is soft and chaffy, however, and the quantity merchantable is estimated by the crop report from the board as 79.4 per cent, as compared with 85.0 per cent. last year.

Potatoes showed much improvement resulting in an increase of 16,298,000 bushels over the forecast in October. Production is estimated at 416,722,000 bushels.

The apple crop is 193,855,000 bushels, or about 8,000,000 bushels less than last year. The commercial crop is placed at 33,522,000 barrels with Washington and Oregon producing large crops. The size and quality are reported generally good.

Other crops were estimated as follows: Wheat 1,737,000 bushels; oats 1,202,458,000 bushels; barley 199,191,000 bushels; rye 64,774,000 bushels; buckwheat 14,511,000 bushels; potatoes 416,722,000 bushels; sweet potatoes 97,429,000 bushels; hay 162,514,000 tons; tobacco 1,436,738,000 pounds; fax seed 19,349,000 bushels; rice 32,737,000 bushels; peaches 45,665,000 bushels; pears 15,335,000 bushels; apples 193,855,000 bushels; sugar beet 6,667,000 tons; grain sorghum 103,606,000 bushels; cranberries 619,000 bushels; beans 14,935,000 bushels; onions 16,694,000 bushels; cabbage 321,000 tons; broom corn 58,000 tons; sorghum syrup 33,642,000 gallons; cloverseed 1,121,000 bushels; peanuts 647,588,000 pounds; hops 17,028,000 pounds.

Preliminary estimates of production in southern states include: Corn (in thousands of bushels): Virginia 53,563; North Carolina 59,835; Tennessee 73,941; Tobacco (in thousands of pounds): Virginia 125,250; North Carolina 357,000; South Carolina 67,160; Florida 4,292; Kentucky 476,280; Tennessee 111,540.

COTTON SQUEEZE COULD BE ENDED

(By The Associated Press)
WASHINGTON, Nov. 8.—The so-called "squeeze" in the New York cotton market would be largely eliminated if delivery on future contracts at designated Southern points was permitted. W. L. Clayton of the Houston and New York cotton exchanges told the federal trade commission today at the concluding session of its inquiry into the cotton industry.

Fears expressed by other witnesses that the Southern Warehouse delivery plan would have a depressing effect on the market and react to the disadvantage of the producer were not shared by Mr. Clayton. He predicted the farmers would benefit from the plan through improvement in the facilities with which the mid-

dian distributor distributes the products. He also favored establishment in connection with the plan of certain differentials under the New York price to cover transportation costs and was of the opinion that manipulation by threat of large deliveries was not likely.

Mr. Clayton estimated that about 15 per cent. of the volume of trading in the futures markets was speculative, and declared it had the effect of minimizing violent fluctuations and providing immediate hedging for merchants and manufacturers.

APRON SALE

For the benefit of the undernourished children who attend the school, The Stonevale Jackson Parent Teachers Association will hold apron sales Saturday, November 10, at the Art Shop, and the Biedose Furniture Company.

BUS CASE ONE OF IMPORTANCE ALL OVER COUNTRY

RICHMOND, Nov. 8.—A case of national importance, involving the jurisdiction of the State Corporation Commission over motor bus lines doing an interstate traffic, is now being fought out before the commission, and may not be finally settled until it is carried to the supreme court of the United States.

The case is being prosecuted by the Washington-Virginia Railway, an electric line operating between Alexandria and Washington, against the Reo Motorbus Line. According to the contention of the defendant motorbus line, the corporation commission has no right to deny a permit to operate motor lines in interstate traffic. The brief of the Reo Company, which has just been filed, acknowledges the authority of the commission in all matters of taxation and regulation. Authorities from Chief Justice John Marshall to the present time are cited to uphold their contention.

One of the most important powers conferred on the commission under this act is the power to withhold permits from bus lines at its discretion, unless such lines were operating in good faith at the time the regulatory act was passed. If the contention of the Reo Company should be upheld, it would considerably restrict these powers.

There is no act of the United States Commerce Commission covering such cases, for placing interstate motorbus traffic under the direct supervision of the federal body. The decision will involve large interests and set an important precedent.

Walton's Trial Is In Full Swing Now

Evidence That Chauffeur Was Paid Well as "Inspector" and Drew Salary as Commissioned Major in Army.

(By The Associated Press.) OKLAHOMA CITY, Nov. 9.—Additional witnesses will be called by the prosecution today in the impeachment trial of Governor J. C. Walton. In support of its charge that the executive diverted public funds to his own use by entering his personal chauffeur on the payroll of the State Health Department.

alleged chauffeur, was placed on the Health Department payroll as an inspector under an agreement between Governor Walton and Dr. A. E. Davenport, state health commissioner, who is an appointee of the governor. Edwards did not work for the department but was paid a monthly salary of \$200 while he operated the executive private automobile, the testimony showed. Later, it was set out, Edwards was commissioned a major in the Oklahoma National Guard on Governor Walton's orders and drew regular military pay during the period of martial law, although he never had stood the required examination, had no previous experience and had not been regularly sworn in.

Evidence also introduced to show that Homer Martin had been appointed an officer in the guard on the governor's instructions. He had orders from the executive to "just stick around" and helped guard the executive mansion while the state was under military rule, it was said. Military requirements likewise were not met in his appointment, it was shown by the testimony.

Governor Walton in his formal answer to the charge denied that he had ever employed Edwards as his chauffeur. Edwards drew the governor's salary, Walton to the capital yesterday for the trial.

Watchful Waiting

Photo shows police on roof at Hamburg, Germany, during fight against Communists.

The Shenandoah Held In Readiness and May Make Trip To North Pole

(By The Associated Press.) NEW YORK, Nov. 9.—The Shenandoah, the navy's biggest dirigible, may be assigned as relief such as for the arctic expedition headed by Captain Amundsen, Norwegian explorer, who, it was announced last night in Washington, will have the co-operation of the United States navy in his attempted flight to the North Pole.

This was made known by H. H. Hammer, Amundsen's assistant, when informed of the navy's announcement. Mr. Hammer, who returned from Washington Wednesday, said that while no definite promises could be made they were able to indicate the big airship would be held in readiness if anything went amiss.

Mr. Hammer, who has made several hazardous flights in the Arctic

during the summer in conjunction with Amundsen, expressed gratification that an American airman would be included in the expedition.

Lieutenant Ralph R. Davidson, the navy airman selected as "well fitted" for the expedition in Mr. Hammer's opinion. He pointed out that Lieutenant Davidson would be the navigator of one of the three planes to comprise the expedition and his pilot, he added, probably would be assigned by the German manufacturers of the airplanes used.

In one of the other two other planes will be Captain Amundsen and Lieutenant Oscar Omdal of the Norwegian Flying Corps and in the third, Mr. Hammer himself, probably will fly with a companion yet to be selected. Captain Amundsen and Lieutenant Davidson will be the navigators of the party.

Reception to New Cabell St. Pastor

Rev. G. W. M. Taylor, new pastor of Cabell street church, and family will arrive in the city this afternoon, having driven through the country in an automobile from Edgefield, Ga., a distance of over three hundred miles. A committee of ladies of the church will receive the family at the parsonage, where everything has been provided for their comfort, including a bountiful evening meal.

At 7:30 o'clock, a reception will be tendered the pastor and his family at the church. An important program has been arranged for this occasion, consisting of music by the choir and addresses of welcome by E. C. Mosely, chairman of Board of Stewards; J. A. Thomas, Board of Trustees; E. P. Motley, treasurer; J. A. Scruggs, secretary; G. W. Huggins, chairman of collection; C. L. Norton, chairman of ushers; W. L. Norton, president of Epworth League; Mrs. T. C. Oakley, president of Woman's Missionary Society; Mrs. W. L. Norton, president of Belle Bennett Society; Miss Myrtle Thomas, president of Lucy Hannon Society; Miss Virginia Yeatts, president of Grace Leigh Guyer Society; Mrs. Joseph Patterson on behalf of Ladies Aid Society; C. W. Lewis with a greeting from the choir. Mrs. L. T. Hall representing the woman, Christian Temperance Union.

The members of the church and congregation will give the pastor and his family a liberal pounding of things suitable for the parsonage larder.

Rev. Mr. Taylor upon this occasion will make his first address in this city, in making his acknowledgement of the reception tendered him and his family to the pastorate of Cabell street church.

McGraw Has Bad Cold.

(By The Associated Press.) NEW YORK, Nov. 9.—John J. McGraw, manager of the New York Giants, suffering with a severe cold and confined to his home, faces the prospect of postponing his proposed trip to Europe, scheduled to begin next Tuesday. He has not left the house for several days.

WEATHER FORECAST

VIRGINIA—Fair tonight and Saturday; freezing temperature in interior; frost on coast tonight; rising temperature Saturday.

NORTH CAROLINA—Fair tonight and Saturday; frost tonight; rising temperature Saturday.

Hey, There!

Society girls acted as traffic cops on Fifth Avenue, New York, recently as a means of advertising a benefit show. Miss Katherine Leslie is shown here taking the place for a few minutes of Officer Edward Connor. Connor didn't mind.

CHANCES FOR DEBT MEETING NOW REMOTE

(By The Associated Press.) PARIS, Nov. 9.—The fact that the French ambassador to the United States, M. Jusserand, has requested a delay in publication of Secretary Hughes' declaration regarding the proposed expert reparations committee is taken here as indicating that the United States will decline to participate in the committee. The chances of the committee being organized consequently are regarded as remote.

Exchanges of views are proceeding between France and her allies as to the action that may be necessary if the movement in Bavaria extends to other states in the Reich.

The French military secret service became aware of the movement in Bavaria yesterday morning and this prompted the French government to notify Berlin that it could not tolerate the establishment of a military dictatorship.

There has been no announcement of a declaration from Secretary Hughes regarding the expert committee other than the Hughes-Curzon notes and reports of recent conversations between the secretary and Ambassador Jusserand.

Weightman Faces Bigamy Charge By Actress Wife

(By The Associated Press.) PHILADELPHIA, Nov. 9.—William Weightman, 3rd, member of a wealthy Philadelphia family, has been charged with bigamy in a suit alleging non support brought by his wife, Mrs. Marie Paul Weightman, former motion picture actress. The bill charged that Weightman contracted a bigamous marriage with Lucy McCready, 18 years old, in Oswego, N. Y. Mrs. Weightman said he deserted her without cause. She came from Los Angeles to enter the suit and is at present employed in a local department store.

Weightman, whose whereabouts is unknown, is a grandson of the late Wm. Weightman, who left an estate valued at \$20,000,000. It was said the grandson was beneficiary of a large sum placed in trust by relatives.

Dan River T. G. C. A. will hold a District meeting at Laurel Grove, Saturday, November 10, at 2:30 p.m. Prominent speakers will be present. The public is cordially invited.

Noted Pianist Topples From Bench Dead

(By The Associated Press.) NEW YORK, Nov. 9.—As he lifted his fingers from the keys of his piano and the last poignant chords of "Misere" floated away, death, in a gripping hand upon Richard Niesia last night and he toppled from his bench dead.

A brief moment before he fell the ripple of laughter, too raucous for such a setting and Selma Seagall, the soprano whose singing he had been accompanying, turned from the door as she was leaving the studio and asked:

"What amuses you maestro?" When she saw the crumpled form, the stroke of apoplexy had subsided and Niesia, the intimate and mentor of many great singers and other musical artists of this day, who composed and who conducted, had breathed his last. The late Enrico Caruso was one of his real close friends. He is survived by his wife and four children.

Foreign Exchanges In N. Y. Topple

(By The Associated Press.) NEW YORK, Nov. 9.—Foreign exchanges toppled at the opening of today's market as a result of the situation in Germany. Demand sterling dropped more than 3 cents to \$4.40, a new low record for the year. New lows for the year were established also by Spanish pesetas, Norwegian kroner and Danish kroner and Holland guilders, while French and Belgian francs declined sharply.

This represented a decline of 125 points from the season's high. January sold down to 32.65 and March to 32.90 on the opening call.

Women to attract must Radiate Health!

BEAUTY is the magnet which draws all eyes—and back of beauty—Health—working silently—Red blood tingling through the veins—the glow of youth in the cheeks—the spring of eagerness, the ever graceful air unrestrained by care or worry—All the charms of beauty. All the works of health.

Men are fascinated by the charms of beauty. Women gaze with envy, secretly jealous, perhaps—wondering—hoping—praying for that attractiveness that is not theirs.

But why the wondering—the hoping—the praying for that craved-for attractiveness—that beauty. Good looks is the barometer of one's condition. Good health radiates beauty. S. S. S. purifies the blood—creates new red blood cells—rids the system of impurities which make beauty and attractiveness impossible. As women to attract must radiate health so must they keep their systems free from impurities and their red blood cells ever increasing. S. S. S. does both.

S. S. S., since 1825, has been ridding the system of impurities—pimples, blackheads, boils, eczema and rheumatism—building red blood cells—giving women to be attractive by radiating health. S. S. S. is made of carefully selected herbs and barks, scientifically prepared and proportioned. All good drug stores carry S. S. S. It is more economical to purchase the large size bottle.

SSS. Makes You Feel Like Yourself Again

SERVICE OF THE COMMUNITY WELFARE ASSOCIATION
For over three years the CWA has been assisting a family of eight. The father has tuberculosis and the mother has recently been laid up. A child of 15 is the only earning member of the family. The CWA has given of its own funds. It has also interested other agencies which have contributed generously both in service and relief. Because of the illness in the family the need will be even greater this year.

MAY'S MAY JOIN GIANTS
(By The Associated Press.) NEW YORK, Nov. 9.—If the other seven American league clubs give waivers, Carl Mays of the New York Yankees may become a New York Giant. Manager John J. McGraw of the latter club admitted today that he would like to have him.

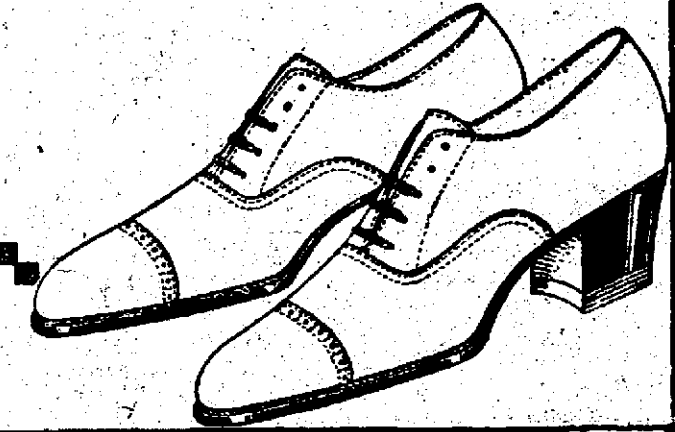

The automobile signs reading "No parking allowed," might be amended to read, "No Barking aloud."

MENIHAN'S ARCH-AID SHOES

Do Not Delay

WHEN feet burn or swell; when arches ache; it is a sure sign that you are not giving them a chance with properly fitted shoes. You should be able to walk just as far without discomfort, when the arches are correctly supported. Delay intensifies the trouble; try a change to Menihan's Arch-Aid Shoes—and enjoy the satisfaction of grace and style as well.

BARKER-GOODE, Inc.
326 MAIN STREET.

The truth about Bran!

NOW'S the time you should know the truth—AND THE WHOLE TRUTH!

Because, if you are in the clutches of constipation, real relief will come only through eating bran that is ALL BRAN!

Kellogg's Bran is ALL BRAN—that is why it is recommended by physicians; that is why it is GUARANTEED; that is why it gives positive, permanent relief! And, Kellogg's Bran, being cooked and crumbled, is as delicious as it is beneficial! Remember that!

Foods with 25 or 50 per cent bran will give you 25 or 50 per cent relief, because they have

only 25 or 50 per cent of the bulk or "roughage" of ALL BRAN—a necessity to secure permanent relief! It is the "bulk" of Kellogg's BRAN that eliminates constipation!

Don't stop half-way in your efforts to fight constipation. Get GUARANTEED RELIEF that will come to you through eating Kellogg's Bran, because it is ALL BRAN—because being ALL BRAN it is 100 per cent efficient!

Two tablespoonfuls daily for mild cases! As much with each meal if conditions are chronic! You'll enjoy Kellogg's Bran as a cereal or for making delicious bran muffins, bread, etc.

Kellogg's the original BRAN—ready to eat

Stokes' Lawyer Villifies Woman In Jury Speech

(By The Associated Press)
NEW YORK, Nov. 8.—Final attack on Mrs. Helen Elwood Stokes' defense in the re-trial of W. E. D. Stokes' suit for divorce were half completed this afternoon by Mrs. D. Steur, counsel for the wealthy hotel owner, attorneys predicting the case would go to the jury tomorrow.

Mr. Steur concluded two hours of summing up his case after Samuel Untermyer, counsel for Mrs. Stokes, had consumed six hours in his summation.

Mrs. Stokes put her fingers in her ears as Mr. Steur's high pitched voiced characterized Mr. Untermyer's address to the jury as a "downright plea to passion, prejudice and anger—can't you see it?—and reiteration of nothing but an attempt to inflame you with hatred, passion and antagonism against Stokes, with nothing but sympathy, and a well of tears, for a confessedly guilty defendant."

Mr. Steur criticized his legal adversary for telling the jury a verdict against Mrs. Stokes would brand her children, injure the social position of her sister or send her white-haired mother to a premature grave. After those statements, he said he felt he did not possess the ability to bring the jurymen back to determination of the case on the evidence. He said the defense's case was built up on vilification of Mr. Stokes and sympathy.

"You've got to choose between your intelligence and your sympathy," he told the jury.

Recalling the denials of Mrs. Stokes' witnesses that she had been in East 85th Street apartment of Edgar T. Wallace, co-respondent, Mr. Steur continued:

"I'll show you out of the mouth of Mr. Untermyer that the defense is a recent concoction. If Mrs. Stokes has been outrageously treated she had it in her power to give evidence of a most conclusive character. Of the trial that she had kept a diary from childhood all through her married life.

"You men of New York, where is that diary? If that diary wasn't plastered with references to 13 East 85th Street, you could have had it here to read."

Mr. Steur demanded to know why Wallace, on the stand for Mrs. Stokes, had not named the woman he said he might have been with at the time witnesses said they had seen him with the defendant. He said if he were defending Mrs. Stokes he would have torn Wallace's tongue from his head if he didn't reveal the name of the red-haired woman, strands of whose hair, witnesses testified, were found in a comb in his bedroom.

Mr. Untermyer, Mr. Steur said, was offering an entirely new defense in his vilification of the plaintiff, although he told the jury that the laws of New York offered a divorce to any man, even though a criminal, if he could prove his wife had illicit relations with another man.

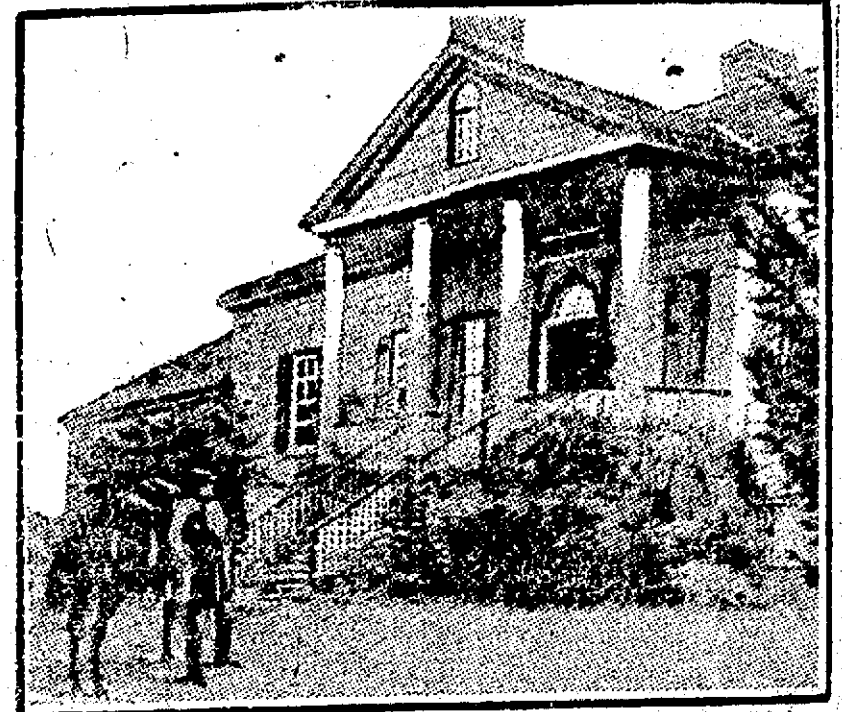

FAMILY WIPED OUT

(By The Associated Press)
MAYS LANDING, N. J., Nov. 8.—Thomas Ross and his wife and child were killed tonight when their automobile was struck by a Pennsylvania Railroad train at Millmay, near here. A second child was badly hurt. The accident occurred a short distance from the Ross home.

MOVIES OF "SHERIDAN'S RIDE"

TOP: WHITE OAKS, SHERIDAN'S HEADQUARTERS AT CEDAR CREEK. STILL STANDING. RIGHT: GENERAL SHERIDAN HIMSELF.

(Special to The Bee)
WINCHESTER, Va., Nov. 9.—Time's curtains will be flung back here next year and with Sheridan 20 miles away, "one of the most stirring scenes from the Civil War relived for perpetuation on the silver screen."

On Oct. 19, 1924, which date marks the 60th anniversary of the battle of Cedar Creek, General Philip Sheridan's immortalized 20-mile ride to the scene of the Union rout which he turned to victory will be re-enacted, at a veterans' reunion.

Of the 50,000 soldiers who took part in the battle, several thousand are still alive.

Contingent upon the co-operation of the state militia to augment the thinned ranks of these veterans, the engagement will be fought over again.

Moving picture companies have been asked to film the attack of the Confederates upon the Union forces and then follow the flight of Sheridan to the front when he heard the firing and believed that his presence was needed.

Secure in recent victories, Sheridan's army was lying in camp along Cedar Creek when surprised.

Sheridan, summoned to Washington for a consultation with Lincoln, and the other commanders, had stopped for the night at Winchester.

At dawn, Early surprised the Union troops, routed one corps, and drove the entire army back.

Sheridan, mounted upon a magnificent black charger, swept on mile after mile, until at last he began to encounter the retreating troops.

"Turn back, men, turn back," he repeatedly shouted and amid wild enthusiasm he dashed on to the battlefield where he received with exultant shouts.

The Confederate attack was repulsed and an advance was made which resulted in the recovery of the lost ground and the capture of many prisoners.

The poem of Thomas Buchanan Read, immortalized the ride of Sheridan and the lines are familiar to every school boy.

CO-OPERATIVE TOBACCO GROWERS HELD LIABLE JUST AS LEAF DEALERS

(By The Associated Press)
WASHINGTON, Nov. 8.—The Internal Revenue Bureau in a decision announced today held that an association composed of growers of leaf tobacco with contracts with its members to handle co-operatively as principal the purchase and sale of leaf tobacco, is subject to the liability of a dealer in leaf tobacco under present laws. The ruling declared as-

sociations of that character are "in no sense" farmers or growers of leaf tobacco and, therefore, can claim no exemption from the liability.

"An association or corporation without capital stock organized by a group of farmers for the purpose of selling co-operatively leaf tobacco grown by them, the sales being conducted by the association or corporation principal," the decision said "can not claim exemption from liability as a dealer in leaf tobacco upon the theory that it regards itself as identical with its members, or, in other words, that it is a farmer or grower itself and, as such, is entitled to the same exemption accorded that class."

In the sale of the tobacco produced by the farmer and delivered by him to the association as member thereof the establishment of contractual relationship between the two parties is inevitable which destroys at once the theory of their identity.

The association is selling the tobacco produced by its members must act either as principal or as agent. When the association agrees to buy, and the growers agree to sell and deliver to the association all the tobacco produced by him or for him, the delivery of the tobacco by a member to the association operates as a transfer of title thereto and in the subsequent sale of the tobacco by the association, the association acts as principal, not as agent, and is, therefore, clearly within the statutory definition of a dealer in leaf tobacco, as one whose business it is, for himself, to sell or offer for sale, leaf tobacco."

Committee Gives Close Attention

(By The Associated Press)
WASHINGTON, Nov. 8.—Members of the Senate committee investigating the Veterans' Bureau were in conference today with Committee counsel studying the organization, policies, system and methods of the bureau in fulfilling its obligations to the disabled veterans. In announcing the conference, John F. O'Regan, general counsel for the committee, said these matters can best be discussed and studied in an atmosphere free from the distractions of a formal public hearing.

"The committee is giving very earnest attention to the development of a complete understanding of the workings of the Bureau," O'Regan said, "with the hope that the knowledge acquired will effectively aid in providing a proper system for the relief of the disabled with the least delay and the greatest degree of effectiveness."

"In relation to the waste and dishonesty, these matters naturally have been given wide publicity in the press, but it should not be lost sight of that other considerations which more directly affect the disabled veterans are occupying very much of the time and attention of the committee and counsel. I do not believe the committee will permit a hunt for 'graff' to interfere with its study of the other side of the investigation."

"I believe we have clearly developed a picture of extraordinary and dishonesty at the expense of both the government and the disabled veterans. It is important to develop on the part of the public an equal understanding of what is needed to secure for the disabled that which the American people intended and still intend them to have."

DIVIDEND DECLARED

NEW YORK, Nov. 8.—The General Motors Company today declared the regular quarterly dividend of thirty cents a share on common stock, the regular dividends on senior securities also were declared.

THREE KILLED AT ROAD CROSSING

Two Men and one Woman Dead and Three are Badly Hurt.

(By The Associated Press)
IRONTON, Ohio, Nov. 8.—Two men and one woman were killed at Belle Pointe crossing, in Russell, Kentucky, just across the Ohio River from here, this afternoon when a Chesapeake and Ohio passenger train No. 3 running 20 minutes behind schedule, struck and completely demolished a large bus operated between Ironton, Russell and Ashland, Kentucky.

The dead: Mr. and Mrs. Paul Lansing, of Lexington, Ky.; W. H. Clay, of near Huntington, W. Va.

The injured: Philip Uancake, Ironton, driver of the bus; Mrs. Kate Fitzgerald, Ashland, Kentucky; Fred Hardy, 11, Russell, Kentucky.

Mrs. Lansing and Clay were killed instantly. Their bodies were horribly mangled and identification was possible only by means of cards and papers among their effects. Mr. Lansing died two minutes after he arrived at local hospital. The dead and injured were the only occupants of the bus. The scene of the tragedy is only a short distance from the business center of Russell and five blocks from the passenger station. The bus was en route from Ashland to Russell. The road crosses the track at a sharp angle and both bus and train were running in practically the same direction—west.

The Tie That Binds

THE UNITED STATES is a nation of far reaching relationships. Urged onward by new opportunities in a land of boundless resources, families have separated more than in any other land. Few men live where their fathers or grandfathers lived. Domestic ties stretch between communities widely scattered.

Commerce and industry, too, have the same spread of interests.

Though the nation is a federation of states, their boundaries form no barriers to trade. In business and social life, as well as in government, the nation has become a great community.

Hence there is a natural demand for telephone service that has no narrower boundaries than those of the country itself. Such a nation-wide service can be given only through an organization having a uniform policy by means of which all its distant activities can be joined together.

The Bell System provides such a service to meet the needs of a united people.

VIRGINIA SQUAD LEAVES FOR FIGHT WITH U. OF GA.

UNIVERSITY, Va., Nov. 8.—Virginia's varsity squad of 22 men left tonight for Athens, Ga., where the annual gridiron battle with the University of Georgia will be fought on Saturday. Students assembled at the station to give the team a send-off in style.

Included in the squad were Hall, Baldwin, and Raney, guards; Watson, Weaver, Ryan, and Cockrell, tackles; Walker and Thoman, centers; Maphis, Dietrick, Holland, and Brown, ends; Diffe and Foster, quarterbacks; Arnold, Walp, McCoy, Hubbard, and Gibson, halfbacks; and Wilson and Darby, fullbacks. Captain Staige Blackford will accompany the team, but not as an active member of the squad, for injuries received against Washington and Lee have kept him from practice all week and will prevent him from getting into action against the Bulldogs.

None of the first team men have engaged in hard scrimmage this week, but there have been some combats between second and third string players. Coach Neale has given his regulars intensive work in signal practice and in dummy defensive play. Georgia is one of the five teams in the southern conference that has not been defeated all season by another

S. I. C. member and the engagement Saturday promises to be hard for both teams, since the Orange and Blue is making a strenuous effort to enter this affair on the credit side of the ledger.

Saturday is the Homecoming Day for the Georgians and special entertainment of the Virginia squad is included as part of the program. Virginia has not defeated Georgia since 1915, though three of the five games played since have resulted in a tie. Many Virginia alumni are expected to meet the team in Athens.

PLAYER OUT OF GAME BECAUSE OF POISONED LEG

PHILADELPHIA, Nov. 8.—Jack Dorn, quarterback of the University of Pennsylvania football team, will not be able to play again this season, because of blood poisoning in the leg. The poison was not the result of any football injury, it was said.

The loss of Dorn broke up a carefully developed backfield combination. Coach Lou Young, lacking a capable signal caller, had removed Dorn from center, where he formerly played, to the quarterback position.

International Nickel Co., six ended Sept. 30, surplus after tax, \$426,324 or 13 cents a share on common against deficit \$106,828 in corresponding period in 1922.

Bramham Named President Sally

(By The Associated Press.) GREENVILLE, S. C., Nov. 8.—W. G. (Bill) Bramham, of Durham, N. C., president of the Piedmont League, was elected president of the South Atlantic Association to succeed W. H. Walsh, of Charleston, at a meeting held here this afternoon of the directors of that baseball organization.

Other matters such as admission of new clubs to the league and election of other officers besides the president and routine matters were left for disposition at a meeting to be called by the new president in the near future.

Just what the above dispatch connotes is matter of conjecture. Whether Bramham is to quit the Piedmont to head the Sally, or whether he will run both organizations is not known. President Bramham could not be reached last night, but he probably will be forthcoming with an explanation this morning.

CAPTAIN WATSON READY TO TAKE HIS MEDICINE

(By The Associated Press.) SAN DIEGO, Calif., Nov. 8.—Captain Edward H. Watson, commander of destroyer squadron eleven, said after the naval court martial went into executive session yesterday, that he was "ready and anxious to take his medicine."

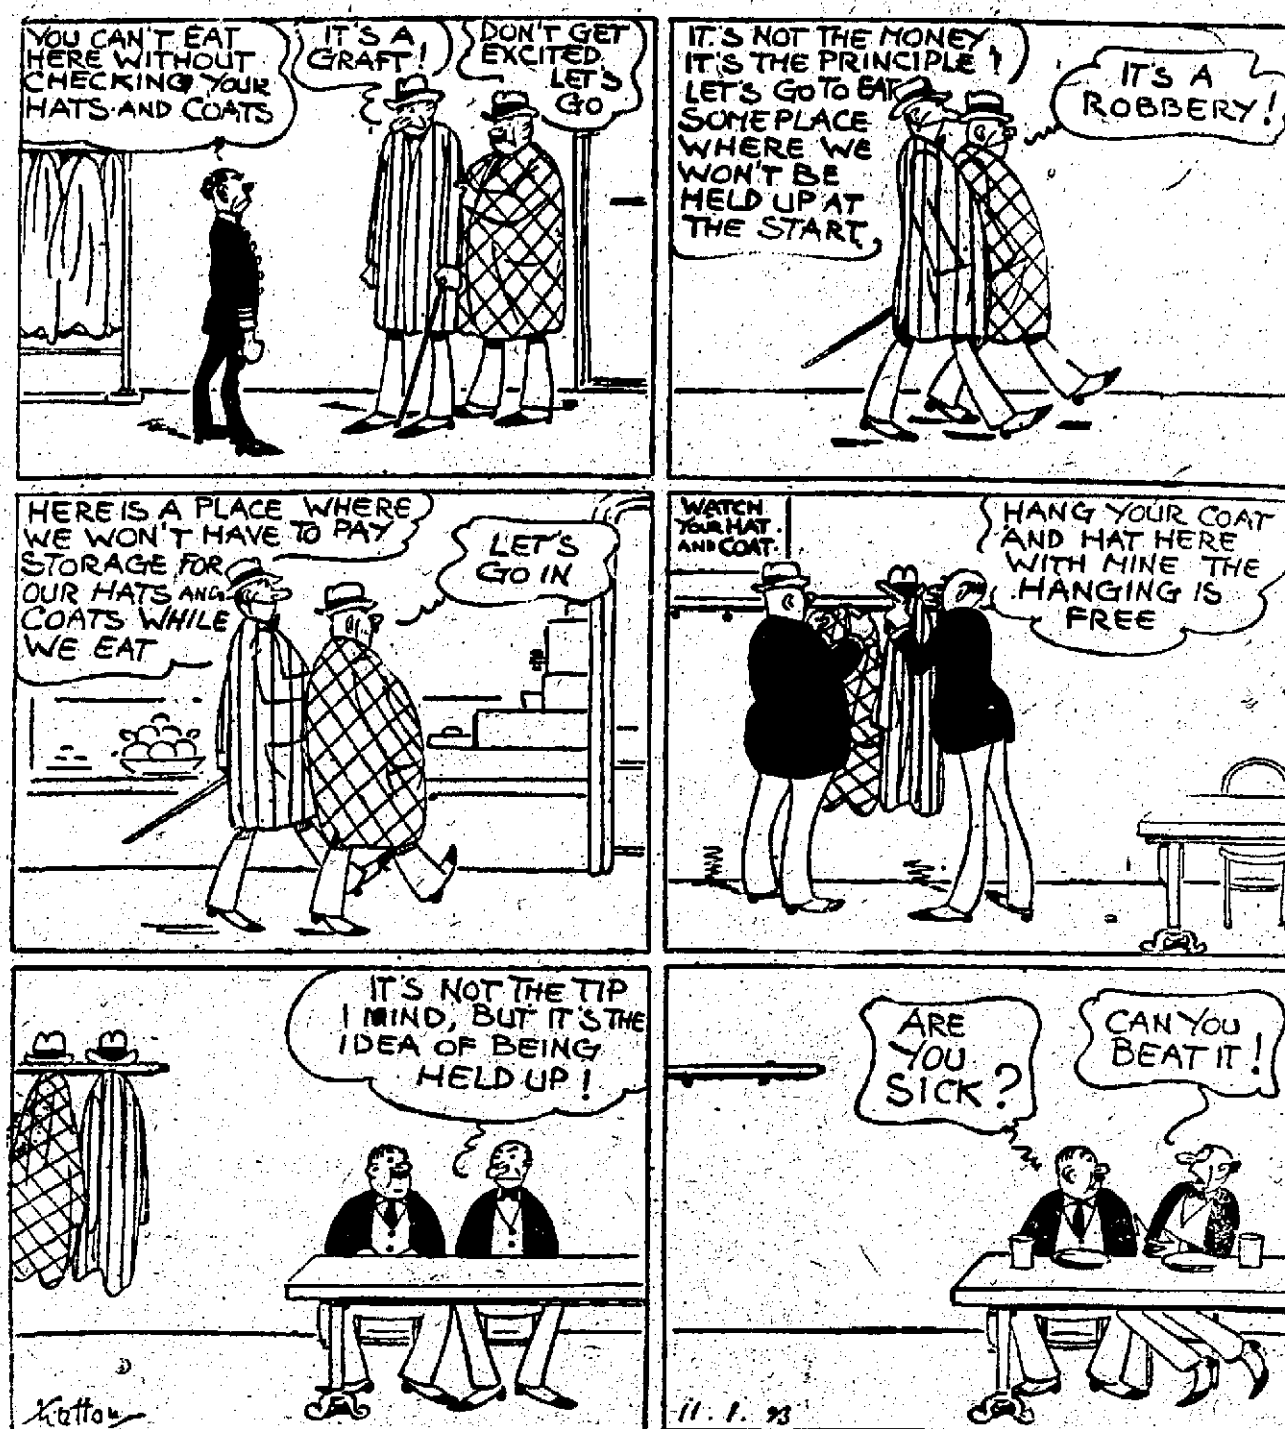

"I don't want an acquittal," the destroyer force officer, who has been in the navy 32 years, declared. "For me to be completely acquitted by this court would be bad for the naval service to which my father and myself have devoted our lives. I believe that no man in charge of vessels of the navy at sea should get away clear when seven are wrecked and 23 lives are lost."

"I made a seaman's decision and it was in error. I am ready to abide by the consequences that I alone took responsibility for the crash and I want that responsibility. But I must insist that the mistake was one of error in judgment based on misinformation and an incorrect estimation of conditions, not the mistake of culpable inefficiency."

Four Virginia Teams Braced For Big Games

(By The Associated Press.) RICHMOND, Va., Nov. 8.—Four Old Dominion eleven were braced tonight in preparation for major gridiron engagements Saturday afternoon in celebration of Armistice Day. Two of the Virginia Tech teams will play on native soil while the other two will journey or are journeying to meet their foes on foreign battle grounds.

Virginia's Warriors left Charlottesville tonight, marching on the Georgia Bulldogs whom they tackle at Athens. The Georgians have shown more than usual fighting spirit and tenacity this season and practice performance of both teams is expected to give the edge over the invaders, who however, are determined to upset the expectations and bring back the Cracker's scalps.

Under the auspices of the Washington and Lee Generals launch their attack against West Virginia. Here too the "dope" is against the Virginians but a terrific struggle is certain to be the result of their encounter. Washington and Lee has played a tie with University of Kentucky while the Mountaineers fought a no-decision match with Penn State's formidable march. The Mountaineers themselves played to a 12-12 tie last year.

Within the home state, V. M. I. will meet the University of North Carolina at Richmond and V. P. I. contests with College State of Norfolk. The wise ones favor the Virginia teams to win in both struggles, though the odds on the game here are more nearly equal with the outcome still a matter of interesting speculation. Virginia Tech has lost to the Third Army Corps and fell also before the Washington and Lee onslaughts but are still regarded as superior to their Saturday's opponents who have tested defeat several times this season.

Cadet's meeting with Carolina here is expected to draw the greatest number of football lovers of the year in Virginia. Tomorrow the quadron owned only once this year by Georgia Tech's Golden Tornado in a 10-7 melee, will arrive in the capital, accompanied and cheered by the Cadet band. The entire Cadet team will arrive on the day of the game to back their champions with their vociferous presence.

Other gridiron contest of considerable interest also will celebrate Armistice Day. The Richmond University Spiders leave tomorrow for New Brunswick, N. J., for their hard battle with Rutgers; Hampden-Sidney, at home, will enter the Varsity Emory and Henry eleven; Williams and Mary meets Delaware at Williamsburg; Randolph-Macon is to engage Lynchburg; Roanoke College will square off against George Washington at Salem, while King College Steam Roller will journey to Maryland at the Maryville, Tenn., playground.

GENERALS LEAVE ON ROAD TRIP

LEXINGTON, Va., Nov. 8.—Washington and Lee will take the road again this week end, after having played on Old Dominion soil for three successive Saturdays, and before again playing to a Virginia crowd when the team leaves for a week-end tour of the West Virginia at Charleston November 10, the big eleven will scarcely have time to get back to Lexington for a few short workouts, before boarding the Pullman again this time for the game with Col. Metzger's Gamecocks at Columbia. The following week-end will find the White and Blue engaging the "Praying Colonels" of Centre College at Louisville, Ky.

With a schedule that calls for so many away-from-home games and the heavy travel occasioned thereby, Coach DeHart will be pushed to the limit to sandwich in any lengthy workouts between trips. Having passed the half-way mark of the 1923 card, the Generals face four of the strongest teams in the country in the remaining contests. Naturally the one big game right now is the one with West Virginia this week-end. The locals have met some of the best teams in this section of the country and have kept a clean slate. However, there is little question that the Mountaineers have a big edge on anything the South boasts of this year in the way of a gridiron machine. For that reason, Washington is confronted with the task of upholding, not only its own record, but the record of southern football, since the White and Blue is the only southern team to be met by West Virginia this season.

Coach DeHart has been stressing the Charleston meeting for weeks—after having seen the Spears eleven in action, realizes that it will be a super-brand of football to compete with it on anything but its own terms. The Fighting Generals this season as in the past, will enter the game the "under dog." With the impressive record hung up by the Morganton outfit so far this season, there is nothing to indicate that they will not continue at the expense of the White and L. aggregation. Not that the big threat of the West Virginians, was in the game but for a short time last October when the dazzling aerial attack of the Lexington outfit bewildered the New Dominion, but he is slated to be a this regular postcard and most likely the score will be a close one. The Generals' defeat two years ago, is also back in harness and will offer plenty of trouble.

Those in touch with the team last season pinned their hopes on a well-mastered aerial attack, and to that it was no surprise that Washington and Lee tied the score against West Virginia. This season, however, the DeHart combination has failed to show any formidable strength in the way of the overhead game. It is no secret that the brilliant forward pass was no longer an evidence in Mattor the General had a man that could leave the oval with the best in the country. Locating a capable successor has been impossible. It would not be surprising, therefore, to see the Old Dominion invaders use an entirely different tactic against the Morganton team than was the case a year ago.

The coaching staff of the White and Blue is working the team overtime this week, stressing fundamentals, "ironing" out the rough spots in the offense, and trying to perfect a defense for Saturday's game. In that measure they have succeeded will be known only after the contest, but certain it is that the Generals must absorb a lot in the remaining time this week if they hope to cope with the fierce opposition the Mountaineers will offer Saturday. The time-out will probably be strengthened in one or two places, but this is as yet indefinite. The squad will leave tomorrow afternoon for Charleston.

DIAMOND STAR. Jimmy Jones, one of the leading contenders for the welterweight title, is almost as good a ball player as a fighter. He plays third base on a semi-pro team at Youngstown, O., during the summer months. Big leggy, he looks very clever.

TRINITY WARMS UP FOR WAKE FOREST ON SAT.

DURHAM, N. C., Nov. 8.—With its many injured firststring men improving slowly but surely and everybody working hard and earnestly, the Blue Devil squad is warming itself up for the eventful Saturday game with Wake Forest in Winston-Salem. Realizing that perhaps the runner up position in the State Championship race is at stake, the Methodists out to upset the sport dope on the game and take the Baptist in row as they have done for two consecutive years.

The new Head Coach Alexander, assisted by Assistant Coach Burhage, is doing great work with the locals. Already signs of improvement in

both offensive and defensive work are being shown. These signs came to the surface in the Elion game although Coach Alexander had had charge of the Blue Devils only two or three practice days.

Alexander, as well as all Trinity supporters have great respect for Gharri's Deacons. Everybody realizes that Wake Forest is one of the strongest opponents that the Methodists have been up against this year. According to the Head Coach, every Trinity player will be ready for a clean, hard fought contest; and that any man who becomes unnecessarily rough will be immediately taken from the game.

While State sport writers seem agreed that the Baptists have the jump on the Methodists, still this opinion is not shared by this side of the fence. Comparative scores show that Trinity has an edge on Wake Forest to be more explicit, 27 points in the game played by these two teams with Guilford and 24 points in the contests that the Saturday contenders have had with Carolina. But the only confidence expressed in local circles is that the Winston Salem fray is going to be one of the best seen in the State, this season.

On a casual comparison as to the relative strength of the two teams, first impressions would have it that Wake Forest has the stronger line, while Trinity has the superior backfield. How much weight this difference in offensive and defensive strength of the two elevens will have only the close of Saturday's contest will reveal.

RESULTS OF ELECTION IN HENRY COUNTY

MARTINSVILLE, Va., Nov. 8.—The official count of the ballots cast in Henry County Tuesday show the following results: For commonwealth's Attorney, Joseph Taylor, incumbent, defeated John W. Carter, Jr.; Harry Turner, incumbent, appointee of Judge J. Turner Clement, defeated Mitchell Davis, ex-sheriff for the office of sheriff; Dr. J. E. Richardson was elected supervisor.

Crude Oil production in U. S. in week ended November 2, averaged 2,295,850 barrels daily decrease 10,650 from preceding week.

Wolfpack Ready For Tech Game

RALEIGH, N. C., Nov. 8.—Barring probable injuries sustained in the grueling scrimmages this week, the Wolfpack of North Carolina State should present its full strength Saturday against Virginia Tech when the two teams clash in Norfolk in the annual Armistice Day game. Trainer Crozier stated tonight that Captain Frank Bosman's injuries, received in the V. M. I. game, are responding nicely to treatment and he expects the fighting leader of the Pack to be in his position at center again when the rival institutions of sister states line up in mortal combat.

In the meantime, Cleve Beatty is ably filling the pivot position as a substitute for Captain Bosman. He played all of the Davidson game and in spite of rather severe bruises he stuck to the job in order that the coming week end will bear witness to another upset in the dome.

N. C. State has developed rather slowly this fall, due to a great influx of green material, but supporters are of the opinion that the team is just beginning to reach top form. After playing a remarkable game against Penn State, the Pack sumped badly and lost the North Carolina game. The encounter with V. M. I. followed next and after holding the Flying Squadron to a 9 to 6 score for three periods there came another "let down" in the final quarter when the Cadets scored two more touchdowns.

Lack of reserve strength caused the V. M. I. disaster and it is along this line that the coaches have worked since the team returned from Lexington. The results, it is said, have been very gratifying. The attack is smoother, more powerful, and embodies greater deception than that employed in the earlier games of the season and what still more pleasing, Coach Hartzell is now in a position to keep the team on the jump, by sending in fresh men, without seriously weakening his machine. There is very little to choose between a backfield made up of Sprague, Holland, Johnson, and Lassiter, and one composed of Summerell, Johnston and the Shaford brothers, Walter and Charlie.

The same is true in the line where the Tech chief has fine substitutes in Herring, Crater, Black, Bousley, Rippe, Hendricks and White.

MARINE CORPS TEAM LEAVES FOR MICHIGAN

(By The Associated Press.) QUANTICO, Va., Nov. 8.—Cheered by four thousand comrades, the marine corps football team which plays the University of Michigan Saturday left tonight for Ann Arbor. After a rail in the post gymnasium the entire garrison, headed by a band and bugle corps of 200 pieces, marched to the station to give the team a send-off.

Brigadier General Smedley D. Butler, commander of the base here, addressed the squad and wished it good luck. Captain LeRoy P. Hunt, manager of the team, Lieutenant "Jonny" Beckett, coach, and Lieutenant Frank Goettge, captain responded.

In five special trains two thousand

CITY ATHLETIC STADIUM PLAN FOR RICHMOND

(By The Associated Press.)
RICHMOND, Va., Nov. 8.—Some advance was made today in the movement to construct here a municipal athletic stadium, adequate to care for major sporting events and the huge crowds which might be expected to attend the state's most celebrated inter-scholastic athletic contests, when the special commission of the city council appointed a sub-committee of three citizens to inquire into and report on the probable cost and possible location of the stadium.

Chairman L. T. Price announced to the commission that H. P. Dawson, president of the local Virginia league baseball club, in conference had expressed his wish to cooperate in the building of a stadium which would seat 20,000 persons and serve professional baseball, as well as all amateur sports. Mr. Price also announced that athletic authorities of Virginia, V. M. I., Washington and Lee and other educational institutions of the state had indicated to him their expectations of bringing many of their greatest athletic events to this city should it build the proposed capacious athletic plant. He believed that Richmond might well become the athletic center of the state.

The commission hopes to be able to submit a report at the December meeting of the city council.

MUSKIAN DIES SUDDENLY
(By The Associated Press.)
NEW YORK, Nov. 8.—Concluding the final chords of "The Mizere" on a piano in his studio, Richard Nicols, widely known as an opera coach and director, was seized with apoplexy tonight and died soon afterwards.

Mr. Nicols once was director of the English Aborn Opera Company, the Creator Opera Company and the San Carlo Opera Company. Many singers who have appeared in both the Metropolitan and Chicago operas have been tutored by him.

MUCH INTEREST ON EVE OF BIG GRIDIRON CLASHES

(By The Associated Press.)
NEW YORK, Nov. 8.—Although the eastern football schedule for Saturday does not list a meeting of undefeated eleven there, will be no dearth of engagements between powerful football rivals and thrilling contests, with the possible garnishment of an upset or two, are in prospect for the hundreds of thousands of football followers who will pack the parks and playing fields.

In general interest the annual meeting of Harvard and Princeton, opening the yearly series among the so-called Big Three Universities, out-ranking all others, but engagement involving three of the five remaining unbeaten teams of this section will be followed with almost equal concern. In each instance opponents of demonstrated or potential strength will face their rivals.

Cornell, regarded by many as the most powerful array in the east has Columbia as its opponent and although the Columbia record is not an impressive one, Columbia is coached by Percy Haughton, an acknowledged master of football play who has made a study of the Ithacan offensive tactics and has prepared special defenses to meet them.

The team meet for the eleventh time in their football relations, Cornell having been victorious in seven

and Columbia in three. Yale, another of the undefeated eleven, will have Maryland as its playmate. The latter has lost one game this season to Virginia Polytechnic Institute. It inflicted on Pennsylvania the single defeat suffered by Lou Youngs eleven.

Syracuse, a third member of the small, select circle of unvanquished teams, has Boston University as its opponent. The latter, after a poor start, evidenced considerable strength in beating Colby last week and has since regained the services of several strong players who have been injured.

West Virginia, still another eleven which has yet to taste defeat, will confront Washington and Lee, while Washington and Jefferson, the remaining member of the undefeated group, has Waynesburg as its foe. In each case the record of the lesser team is not considered formidable nor indicative of a possible upset.

The Dartmouth-Brown, Pennsylvania-LaFayette and Williams-Wesleyan contests and the inter-sectionals of games involving Army and Arkansas Aggies, Boston College and Centenary, Navy and St. Xavier, Penn State and Georgia Tech, and Detroit and Carnegie Tech, are among the promising battles tomorrow which eastern football enthusiasts will follow closely.

Fox Hunters Ass'n Begin Field Trials

(By The Associated Press.)
WASHINGTON, COURTHOUSE, O., Nov. 8.—Members of the National Fox Hunters Association, here for the thirtieth annual field trials of the organization, started off at dawn today on the second cast of the chase.

Thirty-eight young dogs, all novices at following the trail, and survivors of the first cast made yesterday, were lined up for today's chase. Followed by almost fifty riders, they were coursing over the rough terrain south of here in their elimination trials this morning. Particular attention was being paid to the work of Chas. J. Brainerd of Hartford, Connecticut ranking dog in yesterday's trials. He received a score of 84 points out of a possible 100 more hunters and their dogs were arriving today in anticipation of the event or event of the program, the all age stake, which will start probably next Monday. More than 100 members of the association and 200 dogs were here early today.

John M. Brainerd, Chicago president of the association said that no attempts were made today to find out the ability of the dogs.

MICKEY M'TIGUE CANCELS FIGHT WITH TUNNEY

(By Chicago Tribune Service.)
NEW YORK, Nov. 8.—Mickey M'Tigue, light heavyweight champion of the world, has cancelled his fight with Gene Tunney, the American champion, with his manager, Joe Jacobs, and created an opportunity for his worst enemy, Young Stribling, the Georgia high school boy, to fight Tunney in Madison Square Garden.

M'Tigue said the bruised knuckle, which was his reason for trying to cancel his fight with Stribling in Columbus, Ga., several weeks ago, has begun to bother him again. For that reason he decided not to keep his engagement with Tunney on December 10th.

If Tex Rickard can procure a waiver of the six round limit on juvenile fighters he will give Stribling the date with Tunney in view of the fact that Stribling went ten rounds with the world's champion and got a draw in Georgia, the commission probably will decide to let him fight 15 rounds here.

M'Tigue recited a fat book of sorrows in telling why he had decided to part with Jacobs, his skipper for several years. Jacobs, he said, had failed to find large purses for him and gave him only \$3,500 as his share of the purse for the Stribling match, although his share was to have been \$7,500.

FAILS TO SHOW.

If Mike M'Tigue insists on going back to Ireland, George Carpentier may regain the light heavyweight title without coming over to this country. On what Mike has shown since winning the title he is going to be soft picking for the first class man that faces him.

TEN MAN SHIFT.

University of West Virginia is using a shift that has caused much comment in the east. It is a play in which but one of the eleven men holds his original position. West Virginia is coached by Fat Spears, former Dartmouth star. The shift that he has developed is an elaboration of the old Dartmouth shift taught by Major Fred Karamagh, now coaching Boston College.

Gotham Romance

Miss Betty Jackson, prominent member of New York's younger set, recently was married to Geoffrey Akford.

STIRBLING BE GIVEN LICENSE

NEW YORK, Nov. 8.—Young Stribling, Georgia school boy boxer, will be granted a license to box in New York, it was said, after the southerner, accompanied by his father, filed formal application with the State Athletic Commission.

The commission, however, probably will take no action on the application in a few days. Stribling is only 18 and under the commission's ruling no boxer under 21 can engage in a match longer than six rounds. However, the commission may waive this rule in Stribling's case, although he may first be asked to box in a preliminary contest to demonstrate that he is physically able to go a longer distance.

Counsel for Joe Jacobs, former manager of M'Tigue, announced today that papers would be served tomorrow on the light heavyweight champion in a suit by Jacobs to recover \$50,000 for slander. The action, it was said, grew out of a statement M'Tigue gave to a local paper in which the champion asserted he had never put his signature to a contract but had signed a blank piece of paper which Jacobs filled in. The fighter's former manager is bringing the suit to clear the attack on his character, the attorney stated, as he contends M'Tigue has charged him with fraud and deceit.

NEW ENGLAND TEXTILE SITUATION IS UNCERTAIN

BOSTON, Nov. 8.—The uncertainty of the New England textile situation has been reflected in omission or curtailment of dividends of some companies. The Fairhaven mills have passed their common stock dividend and the plants have been closed for two weeks. One of the principal products of the mills is fabric for cord tires, the demand for which has slumped sharply. Directors of the Holmes Mfg. Company of New Bedford, another large yarn spinner, reduced the dividend on the company's stock for the current quarter from \$5 to \$3 a share. The Draper Corporation, one of the largest textile machinery manufacturers has enough orders to run at capacity for six months.

OFFICERS ELECTED

NEW YORK, Nov. 8.—Alba R. Johnson of Philadelphia, was elected president of the Railway Business Association today. Other officers chosen were: Vice Presidents, Stephen C. Mason, Pittsburgh; Charles J. Springfield and B. L. Winchell, New York; J. G. Platt, of Boston; William L. Sharp, and Samuel L. Hastings, Chicago, and S. L. Smith, Cleveland; Treasurer, P. Harvey Middleton, Philadelphia.

PRINCE VIGGO RETURNS FROM VISIT TO U. S.

(By Chicago Tribune Service.)
COPENHAGEN, Nov. 8.—Prince Viggo of Denmark, who has just returned from a visit to the United States, says that he is engaged to a Miss Greene, daughter of Jerome Davis Greene, a New York banker. The prince met Miss Greene at the home of Baron von Schilling, in charge of the Russian legation at Copenhagen.

The American girl and the prince are both racing fans. The prince is thirty years old and is a lieutenant of cavalry. He is a cousin of King Christian.

Miss Greene is 19 years old. Her father is connected with the Rockefeller.

NOVEMBER

When trouble-blows do lightly float
Above the pasture light,
And shrills the hawk a parting note,
And creeps the frost at night,
Then hilly ho! though singing so,
And whistle as I may,
There comes again the old heart pain
Through all the livelong day.

In high wind creaks the leafless tree
And nods the fading fern;
The knolls are dun as snow-clouds be
And cold the sun does burn.
Then ho, hilly ho! though cheering so,
I cannot keep it down,
The tears arise unto my eyes,
And thoughts are chill and brown.

Far in the cedars' dusky noles,
Where the serene ground-rune weaves,
The patrician drums funeral rolls
Above the fallen leaves.
And hip, hip, ho! though cheering so,
It still not with the pain:
For drip, drip, drip, from bare-branch
Tins.

I hear the year's last rain.
So drive the cold cows from the hill,
And call the wet sheep in,
And let their stamping patter ill
The barn with warming din.
And ho, hilly ho! though cheering so,
That we will find a cheerful mind
Around the fire at home!
—C. L. Cleveland.

The First Presbyterian church of Roanoke had one pastor for 42 years, and now it is going to have a Young one. His initials are T. K.

Bulgaria has agreed to the terms of Jugo-Slavian's peremptory note and another war cloud has vanished.

Zev Sets New U. S. Turf Mark

(By The Associated Press.)
NEW YORK, Nov. 9.—Zev, conqueror of Papyrus, has set a new American turf mark in winding up his three-year-old racing career by bringing the year's total winnings of the Rancocas stable of Harry F. Sinclair to \$399,024. This breaks all American records for amounts won by an American stable in a single year.

By defeating Homestretch by three lengths at Pimlico yesterday Zev brought his total winnings for his 2 years racing to more than \$276,000, said to be the largest sum ever won by an American thoroughbred. The victory marked the close of his career as a three-year-old as he now will be shipped to the Rancocas farm to retire for the winter.

The best previous record for winning owners in a single year was held by James R. Keene with a total of \$397,342 in 1907.

PIMLICO RACE IS EASILY WON BY ZEV BY 3 LENGTHS

(By The Associated Press.)
BALTIMORE, Md., Nov. 8.—Pimlico serial number three, weight for age race at Old Hill Top this afternoon proved a romp for Zev, who won, pulling up, by three lengths, from Homestretch. Tryster was third. The time for the mile and a furlong was 1:53 3-5.

Zev carried 120 pounds. Homestretch 120 and Tryster 126.

When the start was made Tryster took the lead and on sufrage made the running.

Down the back stretch turn Sande let Zev out and the colt jumped away before the crowd could realize it.

DRY ENFORCEMENT ADDRESSES SUNDAY

Rev. David Hepburn, of Richmond, superintendent of the Anti-Saloon League and W. T. Shelton, prohibition inspector of Danville, will make addresses at Rocky Mount, Va., Sunday morning at 11 o'clock and at Boon's Mill at 7:30 o'clock at night.

AUCTION SALE

OF VALUABLE

Business Property

In the Heart of the Business Section of Danville

Saturday, Nov. 10, 1923

AT 11 O'CLOCK, A. M.

We will on the above date on the premises, sell at Public Auction, the following described real estate owned by The Industrial Savings Loan and Investment Co.

Lot and three-story building fronting 50 feet on Patton street, next door below and adjacent to City Courthouse, and across the street from the New Register-Bee Building, and running back 167 feet to the Piedmont Warehouse. The property includes:

- 1st. Two storehouses fronting on Patton street and a large hall in rear.
- 2d. Three-story brick factory, with entrance into Lynn street.
- 3rd. Lot of land adjoining Piedmont Warehouse.

This property has been divided into four separate pieces, and will be offered separately, and collectively.

Maps of property may be seen at our office at any time.

TERMS:—\$10,000 Cash; balance in one sum, payable April 20th 1927, with interest at rate of 6 per cent. annually payable semi-annually.

GRAVELLY BROS., Agents.
R. M. FOSTER, AUCTIONEER.

Another Enlistment

Theodore Roosevelt, assistant secretary of the navy, has signed up for another "kick" in the Red Cross. And the recruiting officer, who gave the credit, is little Beverly Moffett, five-year-old daughter of Rear Admiral William A. Moffett. Her father, you know, is chief of the naval air service. By Thanksgiving, the American Red Cross hopes to enroll 5,370,000 members for the coming year.

PARIS GARTERS

No metal can touch you

Every year more men come to PARIS—because men who have worn them constantly endorse them for their service and comfort and good dealers everywhere recommend them.

LAST MINUTE PHOTOS WHO'S WHO WHAT'S WHAT IN THE NEWS

Cyclop's Geography

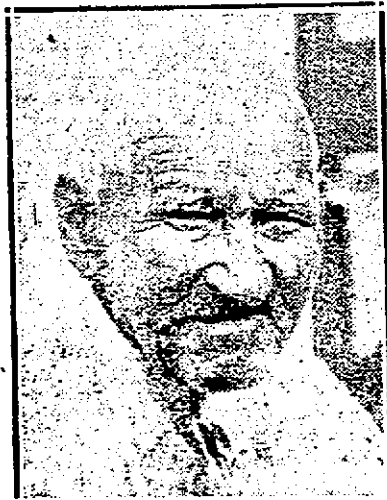

(By Pacific & Atlantic)
Pages in this book, a sixteenth century atlas in Rostook University, Holland, look like billboards. Compare it with the thumbnail calendar on the chair, one of smallest books in the world.

Aviators Link Canada and Mexico

(By Pacific & Atlantic)
Twelve hours and thirteen minutes was the elapsed flying time of Capt. L. H. Smith and Lieut. J. P. Richter in their mid-air refueling non-stop flight from British Columbia to Mexico. Photo shows them refueling 3,500 feet in the air. The airmen traversed 1,280 miles at a little better than 100 miles an hour.

First Voter

(By Pacific & Atlantic)
Nicholas Hartman, 107 years old, registered in Baltimore, Md., recently for first time to vote. Years ago Mr. Hartman voted in the West, but has not been near polling booth since his arrival in Baltimore many years ago.

Coming to U. S.

(By Pacific & Atlantic)
Dr. Fridtjof Nansen of Norway, winner of the Nobel Peace Prize of 1922, is on way to this country. He will lecture in U. S. at invitation of the World Alliance for International Friendship through the churches.

Some Are Born With Two Luck Stars

When gas explosion wrecked the home of Sarah Schleussfeld (center), Brooklyn, N. Y., she escaped death, but earring was blown off her ear.

George Gould's Widow in Court Fight for Millions

Guinevere Sinclair Gould and her two children, Jane and George, are the center of legal storm brewing about old Jay Gould's will. On New York court's interpretation of the word "issue" hinges the disposal of a \$10,000,000 trust estate left by Jay Gould to his grandchildren, two of whom (above), with mother, Guinevere Sinclair Gould, it is claimed, are illegitimate.

Sailing the Seven Seas

(By Pacific & Atlantic)
Regular tramps are Pompeii (left) and Stamboul, mascots of the U. S. destroyer Lawrence, which recently returned to Brooklyn, N. Y. Navy Yard after seventeen months in Mediterranean waters. The dress suit case bears marks of Constantinople, Nice, Madrid, Athens and Cairo.

Chief Cook and Bottle Washer Besides General Manager

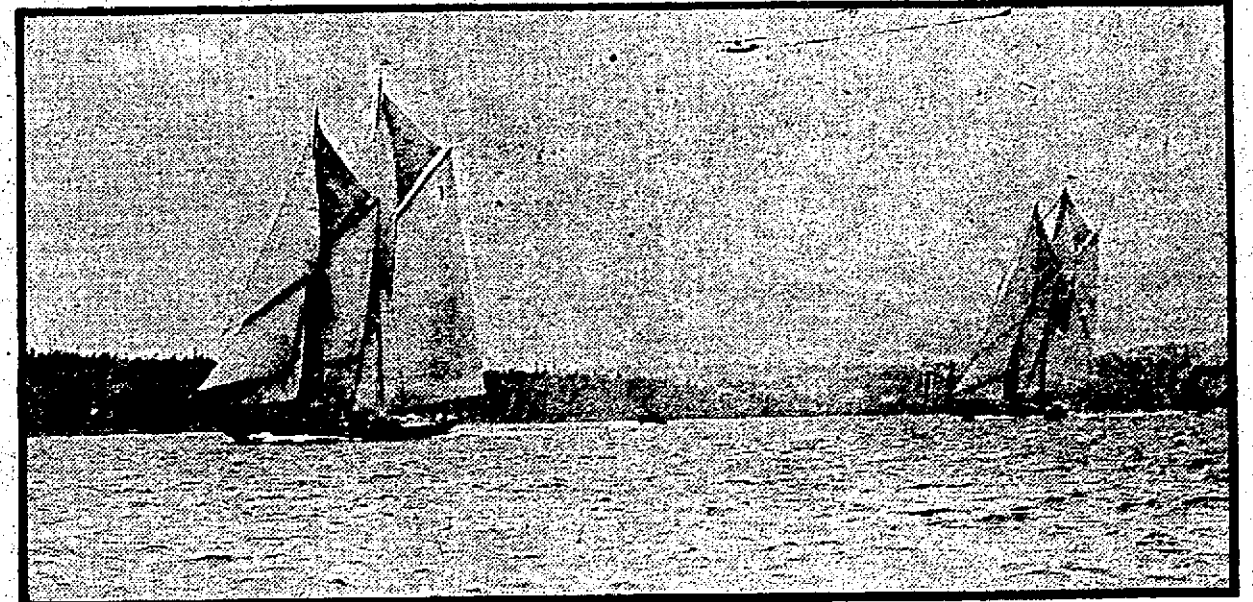

Miss Frances Santee of Goldtown, Cal., who in addition to her duties as secretary of the famous Yellow Dog mine watches the development of new strikes, takes samples of the ore and assists in the active mine management. She is shown with two men who have hoisted a bucket of high grade ore from a new shaft.

Little Miss Moffett Did the Trick

(By Pacific & Atlantic)
Secretary Herbert Hoover was enrolled as a member of the American Red Cross by five-year-old Miss Beverly Moffett, daughter of Rear Admiral William A. Moffett, chief of the Air Service, as the annual Red Cross roll call got under way.

Canadian Schooner Shows Way to American Entry

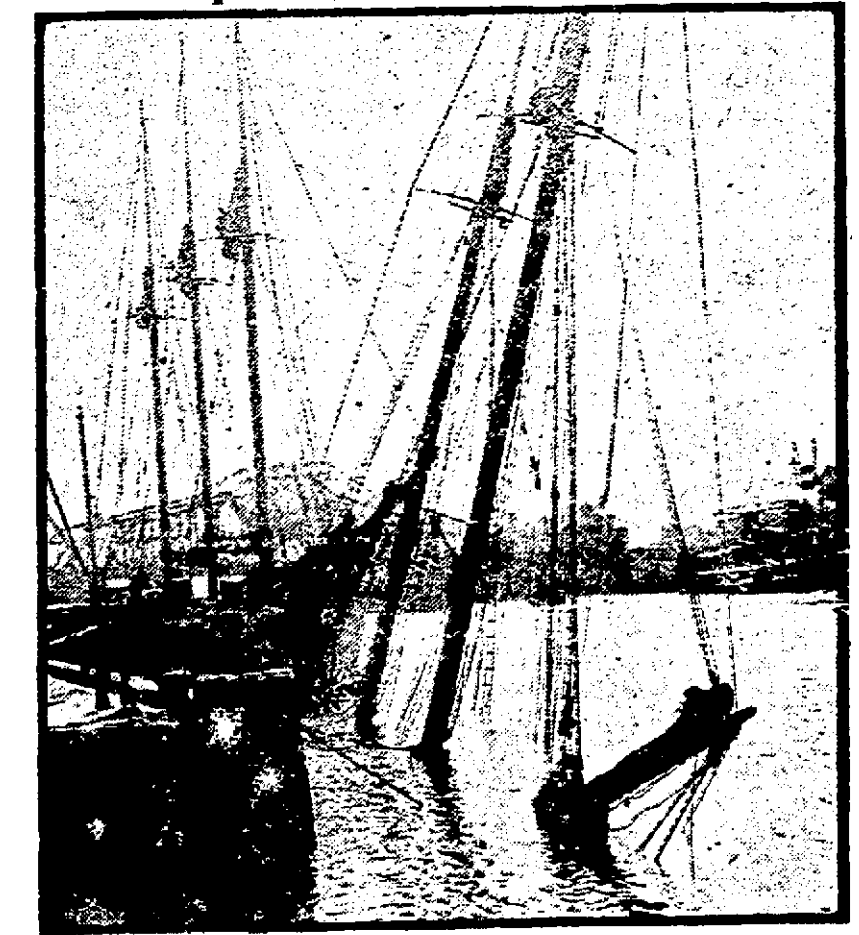

(By Pacific & Atlantic)
This photo of the international fishermen's race shows the Bismarck, the Canadian entry (left), leading the Columbia, representing America, at start of first race.

They Believe in Safety First

By adopting a death barometer for its many motor vehicles the Illinois Bell Telephone Company hopes to teach drivers a lesson in care. The barometer shows auto deaths in Cook County, Ill., and is changed daily as the number of fatal accidents increases.

Ship Scuttled to Save Pier

To save another schooner and the pier at which she was tied in New York Harbor the crew of the schooner Charlie and Willie sank her at dock when fire broke out.

MORNING COTTON LETTER

Thomson & McKinnon
NEW YORK, Nov. 9.—Yesterday all options went into new ground for the season caused by big speculative buying. Up to the present time bulls have had everything their own way. Believe that there is a big speculative long interest in the market, which is likely to get scared at any moment, and as practically all the shorts have covered, they may not find the buying power.

wheat market has shown around present level? Or have you come to the conclusion that bearish statistics have been amply discounted. The market has been within a few cents of the present price since the beginning of the crop season or since the overwhelmingly bearish situation became common knowledge. There has been no change in actual conditions but the unexpected must always be reckoned with and any change at this time can hardly augment the many factors now standing out against the market.

NEW ORLEANS COTTON.

(By The Associated Press)
NEW ORLEANS, Nov. 9.—A highly unsettled and irregular market prevailed in cotton in the early session today. On the opening prices broke 90 to 152 points under poor cables and the unfavorable political news from Germany but the usual buying orders were under the market and they caused a quick rise of 51 to 120 points so that at the end of the first half hour of business prices were only 32 to 44 points under the last sales of yesterday. December fell to 32.65 and then recovered to 33.16, July traded as low as 31.70 and as high as 32.90.

The Peace Prize Offer

Has inspired a newspaper jokesmith to suggest the following among other problems for whose solution Mr. Bok might offer prizes: "How to save money when you spend more than you make." That problem will confront the race when wars are no more. For peace of mind we must spend less than we make, and save the difference in a COMMERCIAL BANK account where regular savings grow surprisingly at four per cent. compounded.

Mexico Nips Plans for General Strike

Believed That Action Is First Step Toward Bringing Critical Political Situation to End.

(By The Associated Press)
MEXICO CITY, Nov. 9.—The prompt action of the federal authorities in frustrating a movement for a general strike is regarded as the first step toward ending the critical situation that has arisen from the violent campaigns being carried on by the Calles and De La Huerta parties. The government asserted that the strike plans, which were nipped by a display of federal military force, represented an attempt to turn the working classes against the army and provoke a conflict that was intended to result favorably to the national co-operist party which is supporting Adolfo De La Huerta in his campaign for the presidency.

Under orders issued by Ramon Ross, the new governor of the federal district, strong forces of police and military present such a threatening front that the Federation of Street Railwaymen in the federal district was forced to call off a strike, which it had scheduled for last midnight. At the same time attempts to organize a strike of the telephone employees, the bakers, the cotton mill workers and the street railwaymen in Tampico and San Luis Potosi, was postponed until a delegation of leaders had opportunity to confer with President Obregon who is convalescing at Lake Chapala.

The government's determined stand also is said to have frustrated plans for dynamiting the electric power cables that lead from the great power plant at Necaxa, which supplies Mexico City. Pachuca Puebla, El Oro and Nberg towns were light and power. Police had already been given notice that the water supply of Mexico City would be cut off on Friday, so that repairs to the valves might be made.

A statement issued at the office of the governor of the federal district says: "The inhabitants of Mexico City were about to become the victims of terrible attacks had not the authorities discovered opportunely the machinations of certain political elements which were attempting to take advantage of a strike provoked by the red elements among the street railway workers for the purpose of provoking a bloody conflict between the workers and the police and federal forces, a conflict with incalculable consequences."

In the course of recent debate in the Chamber of Deputies on charges of mismanagement of the Treasury Department under De La Huerta, President Obregon said: "General Obregon threatened De La Huerta that it might be necessary to sacrifice two, three, four or five lives and then it might be necessary to cut short one during the confront the Calles."

NEW YORK STOCKS.

(By The Associated Press)
NEW YORK, Nov. 9.—Except for a continuance of yesterday's broad demonstration in strength in the motors and accessories shares, prices at the opening of today's stock market were lower in most instances among the more active items. Stromberg Carburetor, Kelsey Wheel and Maxwell motors "A" opened 1-3/4 to 2 points higher.

Trading became irregular in the secondary dealings while the market showed hasty realizing and bear pressure in response to German situation was realized in a drop of three cents in sterling to 4.40, the lowest of the year, effective support was extended to many of the less popular shares. Stromberg Carburetor reacted 2 points to 75 and then climbed to 79. Royal Dutch, Pressed Steel Car and Dupont were among the conspicuous weak shares while Davison Chemical was run up more than two points.

TICKER TALK

Thomson & McKinnon

NEW YORK, Nov. 9.—Pressed Steel car resumes common payments with \$1 dividend.

California Pete nine months ended Sept. 30 net after tax, depreciation, sinking fund etc., \$5,407,788 against \$1,896,056 in corresponding period 1922.

Quintanarro Sugar declares regular quarterly dividends of 30 cents on common \$1.75 on 7 per cent. debenture, \$1.50 on six per cent. debenture and \$1.50 on six per cent. preferred.

Ratio Federal Reserve System 76.5 against 76.3, week ago and 76.4 year ago.

Standard Oil of Ohio declares regular quarterly dividend \$2.50 on common.

Magnolia Pete cuts midcontinent crude from 10 to 15 cents from Oct. 30 prices on grades below forty degree gravity.

Car loadings in week ended Oct. 27 were 1,073,965, increase \$1,784 over preceding week and 74,247 over corresponding week last year.

Monarchists overthrow government in Bavaria and proclaim General Ludendorff dictator.

Creditors of Knauth, Nachod and Kuhne bring action for \$221,822 against Geo. W. Perkins, William C. Teyton and others alleging they were partners in defunct firm.

Joseph Walker, president Joliet & Chicago Railroad sues to end lease to Chicago & Alton.

Owens Bottle Company declares regular quarterly dividends of 75 cents on common and \$1.75 on preferred.

Aggregate value of new buildings in 134 cities in October \$187,822,241 against \$157,526,371 in September and \$142,669,633 in October, 1922.

Five issues of joint stock land banks totalling \$4,000,000 and issue of \$3,000,000 Ohio River Edison Company 7 per cent. cumulative guaranteed preferred stock offered today.

Foreign and domestic copper shipments by north and south American producers in October approximated 230,000 pounds against 100,000,000 in September.

New York prices on 1924 star models of Durant Motors incorporated are increased approximately \$55 on the touring and \$75 on the sedan. Touring sells in New York for \$561. Sedan \$572. Sport touring \$722 and special sport sedan \$1,028.

Average price twenty industrials 90.75, up 1.27, twenty rails 79.92 up .19.

MORNING STOCK LETTER

Thomson & McKinnon
NEW YORK, Nov. 9.—I suppose a good many will take the news of Germany rather seriously. Don't do it. It is just a case of too many generals in Germany out of a job. The number may be reduced by some fighting among themselves but it won't interfere with the plans for ultimate stability.

You have noticed, of course, what the railroad managers are planning in the way of expenditures for the next year. They are what they are about. They are not in need of a guardian.

And, by the way, what do you think of building contracts in October being 25 per cent. greater than the previous month? That sounds pretty good for what was expected to be a depression period.

Things are moving along pretty nice now and we won't have to stay awake nights thinking up arguments to convince you that a receivership for Uncle Sam is not in sight.
